A Message from Sal Longo

I started in this industry back in the 1980s, selling gloves and first aid supplies out of the back of a truck. What began as a small operation grew into Northern Safety, one of the leading safety distributors in the country.

After selling the business, I thought I was ready to retire. It didn't take long to realize I wasn't. I missed the industry — the people, the work, the challenges and the satisfaction of knowing we help others stay safe every day.

That's what brought me to ZING Green Safety Products. I saw an opportunity to continue what's always mattered to me — protecting people and doing right by the environment. At ZING, we're shaping the future of safety with products that protect workers and the planet at competitive prices. For us, it's not just about what we sell, it's about how we make it. Whenever possible, we focus on U.S. manufacturing, eco-friendly materials, and smarter packaging that reduces waste without sacrificing quality.

Having spent most of my life as a distributor, I understand your world — what it takes to earn a customer's trust, to deliver on promises, and to stand out in a competitive market. My goal now is to help you protect your customers and grow your business with reliable, environmentally responsible safety products you can count on.

I'm proud to be part of this next chapter and grateful for the chance to keep contributing to an industry that's meant so much to me.

ZING Green Safety Products — Where Safety Meets Sustainability.

A handwritten signature in black ink, appearing to read 'Sal Longo'.

– **Sal Longo**,
Owner & CEO
ZING Green Safety Products

Smarter Safety Starts Here!

We've Done This Before

We've been in the safety business for decades. You get reliable products and practical solutions — not guesswork.

Built For Flexibility

We offer logo custom kits, private label programs, and tailored solutions — so you can meet your customers' needs.

Sustainability Comes Standard

Recycled materials. Reduced packaging waste. Smarter manufacturing. It's built in — because your customers are asking for it.

Easy to Work With

Fast lead times. Responsive service. No red tape. We keep it simple, so you can keep things moving.

ZING® Green Safety Products is Built for Distributors!

At ZING Green Products, we're built for distributors. You need products that ship fast, meet your customers' needs, and give you a competitive edge-without the headaches. From gloves, glasses, and head protection to emergency eyewash, signage, and lockout/tagout, our lineup is designed to make your job easier and your offering stronger.

Partner with ZING & Grow Your Business With Proven Safety Solutions

Where Safety Meets Sustainability

Protection With a Purpose

At **ZING® Green Safety Products**, we make it simple for you to bring eco-friendly, high-quality safety products to your customers. We're delivering protection that meets today's demand for both performance and sustainability.

Whether you're looking to expand your catalog, meet green procurement requirements, or stand out in a competitive market — ZING is your go-to partner for smart, sustainable solutions.

Eco-Friendly Production

Carbon emissions are generated during raw material production, product manufacturing, and the transportation of goods.

At ZING, reducing carbon emissions is a core part of our sustainability commitment. Below are the key ways we are actively working to minimize our environmental impact.

- **Using Recycled Materials** – Lower emissions than virgin materials
- **Using Bio-Based Materials** – Renewable, often lower carbon footprint
- **Improving Energy Efficiency** – Less energy = fewer emissions
- **Reducing or Redesigning Packaging** – Less material, lower transport emissions

Raw Materials

Waste

Understanding Our Commitments

Recognized standards that support responsible materials, safer products, and reduced environmental impact.

Expand Your Eco-friendly Product Range

We understand that your customers demand more than just safety compliance — they expect eco-conscious solutions that align with today's sustainability priorities. That's why we developed **EarthGuard™**, our new benchmark for environmentally responsible products.

The **EarthGuard™** icon throughout this catalog highlights products **made with recycled content, USDA biobased materials, or UL Environmental Claim Validations**, making it easy to identify environmentally responsible options.

Eco-Responsible from Start to Finish

Product meets a minimum bio-based content percentage set by the USDA

Tested for harmful substances; safe for human contact

Independently verified environmental claims

Sustainable Packaging Initiatives

At **ZING**, our sustainable packaging choices help minimize plastic waste and promote responsible sourcing without compromising performance.

Z-Force™ by ZING Gloves is packaged with...

- ✓ FSC®-certified, plastic-free paper bands
- ✓ Plastic-free, water-activated packing tape
- ✓ FSC®-certified outer cartons
- ✓ Printed materials using bio-based soy inks

Z-Force™ by ZING Eyewear is packaged with...

- ✓ Outer cartons made with 100% recycled materials
- ✓ Inner boxes made with 99% recycled materials
- ✓ Individual polybags containing 30% recycled content

Sourced from responsibly managed forests

We're CustomiZING Safety!

ZING® PRINT SHOP

In-House Customization and Personalization...

With **ZING Print Shop**, adding your company's logo or safety message is fast, easy, and professional. Our expert screen printing, embroidery and pad printing services help you turn everyday safety gear into a bold expression of your brand.

Why customize with ZING Print Shop?

- Promote your company and boost brand visibility
- Strengthen team identity and employee morale
- Improve on-site identification and security
- Support a strong culture of safety and professionalism

From head to toe, **ZING** helps you outfit your crew with personalized gear that looks great and performs even better.

Customize the Products You Use Every Day!

- ✓ **FREE SETUP**
Some exceptions may apply.
- ✓ **Low Minimums**
- ✓ **Fast Turnaround**
- ✓ **Competitive Pricing**
- ✓ **Quality, Value, Service**

State of the Art Equipment

SCREEN PRINTING

Make your brand standout!
Ideal for vests, shirts
hoodies, and jackets.

EMBROIDERY

Available on styles of work wear
clothing, polo shirts, baseball
caps, and duffle bags.

PAD PRINTING

Imprint your logo on different
surfaces. Available on
hard hats, and eyewear.

SAFETY BEGINS WITH PROPER EYE PROTECTION

Z-FORCE™
by ZING

Frame Styles

Frameless

Lightweight and minimalistic, frameless styles are ideal for tasks that require unobstructed views and for those who are required to wear eye protection for an extended period of time.

Half Frame

Half frame styles combine the strength of a full frame with the lightweight feel of a frameless, providing a good balance between durability and a broader field of vision.

Full Frame

Lenses are fully encased by the frame, holding the lenses firmly in place and offering the most protection from wind, dust, and flying particles. The full frame works best to absorb and distribute impact, thus reducing the risk of the frame breaking or the lenses becoming displaced.

OTG (Over-The-Glass)

Designed to fit comfortably over prescription eye glasses so there is no need to remove or replace existing glasses.

Goggles

When unobstructed vision is required, goggles are designed to provide complete coverage. Ideal for situations where splashes and flying debris are a concern.

Choose the Right Eye Protection For The Job

Frame Features

Adjustable Nose Pad
Nose piece is adjustable to accommodate a face or nose bridge.

Non-Slip Nose Pad
Provides a comfortable and non-slip fit for all day wear.

Adjustable Ratchet Temple
Provides up and down angle adjustment points on the temple to customize a secure, personalized fit.

Adjustable Temple Length
Allows you to adjust the length of the temples to fit different head shapes and sizes.

Co-Injected Temple
Temple design combines polycarbonate and rubber for superior comfort, durability and a secure fit for the wearer.

Foam Sealed
Low profile, closed cell foam gasket around the inside of the frame blocks out dust & debris.

Brow Guard
Built-in brow guards help to keep debris out of the eyes.

Lens Colors

Clear – Allows for maximum light transmission. Ideal for indoor use with normal lighting conditions.

Smoke – Helps to reduce glare and eye strain. Ideal for outdoor use in bright sunlight.

Indoor/Outdoor – Offers protection from both artificial lighting and sunlight. Ideal for transitioning between indoor and outdoor settings.

Amber – Filters out blue light, enhancing contrast in low light conditions. Ideal for foggy, hazy or low light settings.

Light Blue – Reduce yellow light fatigue and excessive glare.

Blue/Silver Mirror – Reflects sunlight and reduces glare. Ideal for outdoor use in bright sunlight.

Polarized – Reduces glare from reflective surfaces and enhances clarity. Ideal for outdoor use.

Maintain Uncompromising Quality and Compliance

We ensure comfort and the highest safety standards remain top priority while driving greener choices.

Expand Your Eco-friendly Product Range

Select styles featuring sustainable materials—delivering the protection your customers trust with a smaller environmental footprint.

Lens Coating

Hardcoat/Anti-Scratch
Primarily used to enhance surface durability by offering superior anti-scratch protection.

Standard Anti-Fog
Focuses more on ensuring clear vision in fluctuating temperatures. Offers moderate anti-scratch protection.

HYDR-X Anti-Fog
Meets or exceeds additional ANSI specific testing and performance criteria for anti-fog protection.

Sporty, frameless style provides comfort for all day wear!

RELIABLE. SAFE. PROTECTION.

Hard Hat Styles

Full Brim:
Provides sun and rain protection. Ideal for construction & road work.

Cap Style:
Lightweight and compact. Ideal for general industry.

Vented:
Improves airflow and provides heat relief. Ideal for non-electrical environments.

Non-Vented:
Maximum electrical protection makes this ideal for electrical and utility work.

Choosing the Right Head Protection

The Importance of Hard Hats

Hard Hats are designed to protect the head from impact, penetration, and electrical hazards in industrial and construction environments. Selecting the correct hard hat helps ensure compliance, comfort, and job-site safety.

ZForce™ by ZING Hard Hat Standards & Compliance

- ✓ Meets ANSI/ISEA Z89.1 standard
- ✓ Non-vented styles also meet CSA Z94.1

Which Hard Hat is Right for You?

Type I

Provides top impact protection

Type II

Provides top and lateral impact protection

Class G (General)

Reduces the danger of contact with low voltage conductors and electrical hazards by providing up to 2,200V of electrical protection

Class E (Electrical)

Reduces the danger of contact with high voltage conductors and electrical hazards by providing up to 20,000V of electrical protection

Class C (Conductive)

Provides no electrical protection

How to Choose Checklist

- | | |
|--------------------------------|---|
| ✓ ANSI Type & Class required | ✓ Job-site environment (heat, sun, chemicals) |
| ✓ Electrical exposure present? | ✓ Suspension & adjustment preference |
| ✓ Accessory needs | |

Cap Style, Vented Hard Hats

- Features a low-profile, modern design that is lightweight and compact
- Complies with ANSI/ISEA Z89.1 for Type I, Class C requirements for head protection
- Made in the USA from high-density polyethylene
- Vented design improves airflow and provides heat relief
- Moisture-wicking, polyester brow pad
- 4-point ratchet suspension allows for smooth, easy adjustability between hat sizes of 6½" to 8"
- Vertical height adjustment capabilities (2 in front, 2 in rear) allow for a personal secure fit
- Accessory slots accommodate a variety of accessories, such as earmuffs or face protection
- ADD YOUR LOGO – Customizable with up to 4 different locations

CHOOSING THE RIGHT GLOVE

Z-FORCE™
by ZING

COATINGS

Polyurethane

- ✓ Solvent-based
- ✓ Enhanced touch sensitivity
- ✓ Excellent dry grip
- ✓ Cost-effective

PPU (Water Based Polyurethane)

- ✓ Water-based
- ✓ DMF and silicone free for workers and the environment
- ✓ Excellent dry or wet grip
- ✓ Lightweight and flexible feel

Nitrile

- ✓ Resistant to punctures, abrasions and chemicals
- ✓ Extremely durable
- ✓ Excellent for dry or wet, oily applications
- ✓ Excellent alternative to latex

Choosing the right work gloves means balancing protection and comfort. Consider materials, coatings, and grip styles to ensure the best fit for the job and keep your hands safe.

MATERIALS

Nylon

- ✓ High elasticity provides flexibility and strength
- ✓ Lightweight, breathable construction for added comfort
- ✓ Low lint

Spandex

- ✓ Softer feel for added flexibility and stretch
- ✓ Provides a snug, contoured fit for comfort

CoolTech

- ✓ Unique cooling fibers prevent hand perspiration by drawing moisture away from the skin
- ✓ Keeps hands cool and dry

GRIP STYLES

Flat/Smooth

- ✓ Solid coating that repels liquids
- ✓ Ideal in dry applications
- ✓ Good abrasion resistance

Foam

- ✓ Lightweight, sponge-like texture channels liquids away
- ✓ Offers excellent grip in wet & oily applications
- ✓ Breathable

Sandy

- ✓ Unique texture for excellent grip in wet and oily applications
- ✓ Enhances cut and abrasion resistance

GLOVE LINER GAUGE

The gauge of a glove liner is the number of needles used per linear inch on a knitting machine. Glove gauges will typically range from 7 to 18 gauge, and now 21 gauge liners have become increasingly popular over the last couple of years. Generally, the lower the gauge, the thicker the liner. The higher the gauge, the thinner the liner. Therefore, a higher gauge gives you the greatest dexterity.

Bio-Based Polyurethane Coated Gloves

- 18-gauge nylon knit liner
- Flat, smooth polyurethane palm coating
- Made from 30% bio-based materials that are sourced from natural resources
- Color coded hems for easy size identification
- Sizes Available: XS-2XL
- 12 pair/inner pack, 144 pair/case

Part #
10-102

Made From Bio-Based Materials **30%**

Bio-Based PPU Coated Gloves

- 15-gauge nylon/spandex knit liner
- Water-based, solvent and silicone free PPU palm coating
- Made from 28% bio-based materials that are sourced from natural resources
- Color coded hems for easy size identification
- Styles Available: Foam or sandy grip
- Sizes Available: XS-2XL
- 12 pair/inner pack, 144 pair/case

Made From Bio-Based Materials **28%**

Part #	Description
10-103F	Foam Grip
10-103S	Sandy Grip

Cooling fibers prevent hand perspiration by drawing moisture away from the skin

Bio-Based PPU Coated CoolTech Gloves

- 15-gauge nylon/spandex/CoolTech knit liner
- Water-based, solvent and silicone free PPU palm coating
- Naturally foamed, sandy finish grip style
- Cooling fibers engineered to wick moisture away
- Made from bio-based materials that are sourced from natural resources
- Color coded hems for easy size identification
- Sizes Available: XS-2XL
- 12 pair/inner pack, 144 pair/case

Part #
10-104

Z-FORCE™

by ZING

Ultra-Thin. High Grip. All-Day Comfort.

Experience the highest level of oil grip combined with optimal dexterity, comfort, and wear resistance. Made from highly elasticized nylon, Z-Force™ gloves with a nitrile blend coating offer a second-skin feel and a perfect fit for extended use across various applications.

Z-FORCE™
by ZING

Bio-Based Nitrile Blend Coated Gloves

- 18-gauge nylon/spandex knit liner
- Smooth, nitrile blend palm coating
- Made from bio-based materials that are sourced from natural resources
- Color coded hems for easy size identification
- Colors Available: Gray/Black or Green/Black
- Sizes Available: XS-2XL
- 12 pair/inner pack, 144 pair/case

Part #	Description
10-201 GY	Gray/Black
10-201 GN	Green/Black

Engineered for Performance

- ✓ Ultra-thin & 30% lighter than traditional nitrile gloves
- ✓ Excellent breathability for temperature control and reduced sweat
- ✓ Touchscreen compatible
- ✓ High abrasion resistance for longer wear life
- ✓ Durable in oily environments with reduced oil penetration

STRONG PROTECTION. SAFE HANDS.

Abrasion Resistance

Cut Resistance

Puncture Resistance

Understanding Cut-Resistant Gloves

Where Does The Cut Protection Come From?

Cut protection comes mainly from **high performance polyethylene (HPPE)** fibers that make up part of the liner. The HPPE fibers provide some degree of cut and puncture protection but when combined with steel or glass fibers, protection is enhanced thus giving you a higher cut rating.

High strength synthetic fiber

Lightweight and flexible

Resistant to chemicals and moisture

ANSI/ISEA 105 STANDARD:

This standard outlines the classification system for cut resistance in protective gloves. It is based on performance levels ranging from A1 to A9, with A1 offering the lowest and A9 the highest cut resistance.

Cut Performance Test:

ANSI/ISEA 105 utilizes a standardized test method to evaluate the cut resistance of gloves.

The cut test measures the force required to cut through the glove material. This will then determine the glove's level of protection against various cutting hazards.

Abrasion, Puncture, and Tear Resistance:

ANSI standards do not only cover cut resistance, but there are also test methods that will evaluate abrasion, puncture, and tear resistance.

Gloves will receive separate ratings for each of these properties, providing a complete assessment of their overall capabilities. The results will be displayed clearly on gloves using the new marking symbol shown to the left.

ANSI Cut Ratings Chart

Markings & Indications Explained

ANSI LEVEL	ANSI A1 CUT	ANSI A2 CUT	ANSI A3 CUT	ANSI A4 CUT	ANSI A5 CUT	ANSI A6 CUT	ANSI A7 CUT	ANSI A8 CUT	ANSI A9 CUT
Weight (gm to cut through materials)	>200	>500-999	>1,000-1,499	>1,500-2,199	>2,200-2,999	>3,000-3,999	>4,000-4,999	>5,000-5,999	>6,000+
Typical Tasks	- For low cut hazards like dull blades, splinters, and bare wood			- For medium cut hazards like blades, rough sheet metal, and glass shards			- For high cut hazards like active machinery and sharp tools		

Z-FORCE™
by ZING

Bio-Based A2 Cut Resistant PPU Coated Gloves

- 18-gauge HPPE/nylon/metal wire/spandex knit liner
- Water-based, solvent and silicone free PPU palm coating
- Made from bio-based materials that are sourced from natural resources
- Color coded hems for easy size identification
- Sizes Available: XS-2XL
- 12 pair/inner pack, 72 pair/case

Essential LOTO Equipment

6 Core Steps of Lockout / Tagout

1

PREPARE

Identify all energy sources used

2

NOTIFY

Inform all affected employees

3

SHUT DOWN

Turn OFF all equipment or machinery

4

ISOLATE

Isolate all energy sources

5

LOCK & TAG

Apply locks and tags to each isolation point

6

VERIFY

Test to ensure zero energy before starting work

Understanding Lockout/Tagout (LOTO)

Lockout/Tagout is a safety procedure used to prevent accidental start-up or release of energy during maintenance or servicing of machines and equipment.

Why is it Important?

- Prevents serious injury or death
- Reduces equipment damage and downtime
- Complies with OSHA 29 CFR 1910.147
- Builds a culture of safety and accountability

What is the Difference Between Lockout vs. Tagout?

Lockout

Physically ensures machinery or equipment is inoperable while being worked on with the use of padlocks, and proper devices

VS.

Tagout

Communicates to workers that machinery or equipment is being serviced or repaired with the use of safety tags

Keying Options: Keyed Different vs. Keyed Alike

Padlocks are a vital part of any Lockout/Tagout program, serving as the physical device that keeps energy-isolating switches, valves, or breakers in the off or safe position. They provide a tangible barrier that ensures the safety of workers.

Keyed Different – Each padlock is keyed differently for maximum security for individual users.

Every lock has its own key. There are no duplications of keys.

Keyed Alike – All padlocks in a group are keyed the same.

The same key opens all padlocks. You can have multiple keyed alike sets. There are fewer keys to track.

For additional keying options, call a ZING Customer Service Representative today!

Trusted Lockout Tagout Padlocks for Workplace Protection

700 Series Safety Padlocks

- Solid aluminum body with a hardened steel shackle is encased in recycled plastic for extended durability and dielectric properties
- Shackle inserts feature a barrier cap, which protects the lock body interior from dirt and moisture
- Unique body design features bilingual wraparound labels
- The 6-pin lock mechanism provides dependable security with key-retaining and auto-locking functions
- Each padlock comes with 3 labels: English Only, English/Spanish, and English/French
- One key included per OSHA guidelines
- Available in multiple color options

ZING padlocks are the only lockout padlock that can accommodate a bilingual label on a standard size padlock

900 Series Safety Padlocks

- Features a solid thermoplastic body and hardened steel shackle with a 7-pin cylinder, allowing more than 200,000 key changes, one of the highest in the industry
- Body is 1.56"W x 1.84"H with a .25" diameter shackle
- Available shackle lengths - 1.5" or 3"
- Keyed different - one key per lock
- Made in the USA with domestic and global components and qualifies for the Buy American Act

7900 Safety Padlock

- Body is made of industrial-grade non-conductive nylon unibody plastic
- Corrosion-resistant stainless steel shackle for enhanced durability in challenging environments
- Features a high-grade brass core cylinder with key retaining functionality to ensure a secure lockout
- Includes "Danger Locked Out Do Not Remove" warning label for the front side and a write-on label for the back side
- Keyed Different – one key per lock with matching key number on the padlock body and key
- Shackle length is 1.5" shackle with a 0.25" shackle diameter
- Dimensions: 3.5"H x 1.5"W x .8"D

6058	Lockout Tagout Information Document Case	Empty	12"H x 13"W x 3"D

Lockout/Tagout Stations

- Made from heavy-duty, impact resistant PETG plastic
- The hooks are double capacity allowing storage of 2 padlocks or hasps
- Padlock hooks are closed allowing locks to be locked onto the station for accountability
- Hook spacing allows 1.5" or 3" locks in any position
- Centers are UL Validated for Recycled Content and support LEED certification
- #6063 and #7117 are designed to be mounted near equipment making lockout convenient
- #6063 is painted steel and has a pocket shelf for small device storage
- All Centers and Stations are Made in the USA

Portable Lockout/Tagout Safety Kits

- Portable kits offer a convenient assortment of locks and devices that allow workers to safely isolate and lock out energy sources wherever they are working, without needing to return to centralized location
- Keeps all essential lockout devices and tags in one place making it easy to carry them to various job sites or across a large facility
- Durable plastic case is both portable and wall mountable

Electrical Hybrid Vehicle Maintenance Signs

- High visibility projecting signs sit on vehicle surface top during maintenance work to help warn workers about the current state of the vehicle being worked on
- V style shape provides stability
- Non-slip rubber feet prevent sliding and protect the surface of the vehicle
- Made from durable, eco-friendly plastic
- Sign face is 6.5"H x 11" W, and the base is 8"D
- **Part# 2652** – Set of 3 (includes one of each sign)

Part #	Description	Quantity
2649	DANGER - High Voltage, Do Not Touch	Each
2650	DANGER - High Voltage, Discharging	Each
2651	VEHICLE SAFE - Discharged, Continue with Caution	Each
2652	Includes 1 of Each Sign	Set of 3

Universal Fuse Carrier/Isolation Port Lockout

- Adjustable, multi-use safety lockout device is used for locking out electrical fuse holders up to 100A (20amp, 32amp, 63amp and 100amp), sometimes referred to as Red Spot Fuses
- Device also locks out electrical isolation port/sockets on electric and hybrid vehicles commonly referred to as the Manual Service Disconnect (MSD)
- Adjustable design makes it suitable for larger Red Spot fuse holders rated at 63A and 100A and other similar cavity style fuse holders
- Easily installs without tools—just grip the side wall of the fuse holder to secure it in place, then lock it using a safety padlock (an insulated or dielectric padlock is recommended for electrical safety)
- Designed to restrict finger access to live contacts and prevent the reinsertion of a fuse or connectors while maintenance is in progress
- Constructed from a blend of polycarbonate and ABS for high impact strength and durability
- No metal parts to reduce risks in live working environments
- Accepts any padlock up to 1/4" diameter shackle

Part #	Dimensions
7830	3"H x 2"W x 0.5"D

Electric Hybrid Vehicle Key Tags

- Vehicle key tags warn workers of high voltage vehicles
- Features a designated area for identifying the technician in charge
- Made from durable plastic

Part #	Dimensions
7831	2"H x 2.75"W

RFID Blocking/Faraday Key Pouch

- Prevents accidental transmission of key signal to vehicle by reducing the risk of unauthorized remote operation during maintenance and servicing

Part #	Dimensions
7835	5"H x 3"W

Electric Hybrid Vehicle Window Mount Maintenance Signs

- Window mount signs warn workers that they are working on a high voltage vehicle
- Signs include a suction cup mount so they can be applied directly to a window
- #2653** Features a designated, re-usable area for identifying the technician in charge

Complete Forklift Lockout Solution For Maximum Safety

Forklift Safety/Lockout Kits

- Kit is designed to prevent the unauthorized or accidental use of a forklift, and other electric or propane-powered vehicles during maintenance, repair or inspection
- Provides a comprehensive lockout solution to include devices, locks, tags, and adhesive safety labels in a durable, portable fabric pouch

Part #	Description	Contents	Dimensions
7675	Forklift Lockout Kit	(1) #7500 Tags, Danger Do Not Use Forklift, 10/pk, (1) #7501 Tags, Forklift Inspection, 10/pk, (1) #7505 Safety Labels, Keep Hands in Vehicle, 10/pk, (1) Safety Labels, Maintain 3 Points of Contact, 10/pk, (1) #7030 Padlock 1.5" Shackle, (1) #7620 1.5" Hasp, (1) #7294 Forklift/Plug/Cylinder Lockout Device, (10) Cable Ties	8"H x 7"W
7677	Deluxe Forklift Lock-out Kit	(1) #7500 Tags, Danger Do Not Use Forklift, 10/pk, (1) #7501 Tags, Forklift Inspection, 10/pk, (1) #7505 Safety Labels, Keep Hands in Vehicle, 10/pk, (1) Safety Labels, Maintain 3 Points of Contact, 10/pk, (2) #7030 Padlock 1.5" Shackle, (1) # 7619 1" Hasp, (1) #7620 1.5" Hasp, (1) #7294 Forklift/Plug/Cylinder Lockout Device, (10) Cable Ties	8"H x 7"W

Manufactured from durable yellow HDPE

Forklift Propane Lockout

- Locks out LP gas cylinder with hand wheels up to $2\frac{3}{16}$ in diameter
- Accommodates 3 padlocks with shackles up to $\frac{5}{16}$ in diameter
- Manufactured from durable yellow HDPE with highly visible "Do Not Operate" label
- Made in the USA out of recycled plastic

Part #	Dimensions
7293	3.5"H x 3.75"W x 2.5"D

Forklift Lockout/Tagout Kit

- Kit is designed to prevent the unauthorized or accidental use of a forklift, and other electric or propane-powered vehicles during maintenance, repair or inspection
- Lockout device also locks out LP tanks

Part #	Description	Dimensions
7319	(1) #7294 Universal Forklift/Plug/Valve Lockout, (1) #7030 1.5" Padlock, (4) #7356E Equipment Lockout Tags, (4) #7130 Cable Ties	7.25"H x 4.25"W x 3"D

Forklift Safety Signs

- Signs promote lift truck awareness
- Made in the USA from durable recycled materials

Part #	Material	Size	Mounting Style
1155	Plastic	7"H x 10"W	Flat
2155	Plastic	10"H x 14"W	Flat
1155A	Aluminum	7"H x 10"W	Flat
2155A	Aluminum	10"H x 14"W	Flat
1155S	Adhesive	7"H x 10"W	Flat
2155S	Adhesive	10"H x 14"W	Flat
2596	Plastic	7"H x 12"W x 5"D	V-Shape
2597	Plastic	7"H x 2.5"W x 7"D	L-Shape

Forklift Tags and Labels

- Communicate critical forklift safety information
- Labels conveniently adhere directly to any hard, dry surface
- Sold 10/pack

7506

Part #	Description	Dimensions
7500	Safety Tag, DANGER - Do Not Use	5.5"H x 3.25"W
7501	Safety Tag, Forklift Inspection	5.5"H x 3.25"W
7505	Safety Label, CAUTION - Keep Hands and Feet in Vehicle	3"H x 3"W
7506	Safety Label, CAUTION - 3 Point Contact	3"H x 3"W

Laboratory Valve Lockout Kits

- Assorted kits are designed to lockout ball valves with lever handles and gas needle valves with standard four-arm handles typically used in laboratory settings
- Ball valve lockouts are made in the USA from durable PETG red plastic
- Ball valve lockout has a 1" diameter opening to fit over the valve body and can accommodate a single padlock with up to $\frac{5}{16}$ " diameter shackle
- Needle valve lockout measures 1"H by 3"D, fits valves ranging from 1" to 2.5", and can hold up to three padlocks with shackles up to $\frac{3}{8}$ " in diameter

Part #	Description	Contents	Dimensions
7822	Laboratory Ball Valve Lockout Kit	(1) Patent Pending #7821 Lockout Device, (1) #7308 Carrying Pouch, (1) #7030 Red Lockout Padlock, (2) #7343 Lockout Tags, (2) Cable Ties	7"H x 6"W x 2"D
7823	Laboratory Needle Valve Lockout Kit	(1) #7103 Handle Lockout Device, (1) #7308 Carrying Pouch, (1) #7030 Red Lockout Padlock, (2) #7343 Lockout Tags, (2) Cable Ties	7"H x 6"W x 2"D
7824	Laboratory Valve Lockout Kit- Standard and Needle	1) #7103 Handle Lockout Device, (1) Patent Pending #7821 Lockout Device, (1) #7308 Carrying Pouch, (2) #7030 Red Lockout Padlock, (5) #7343 Lockout Tags, (5) Cable Ties	7"H x 6"W x 2"D
7829	Laboratory Valve Deluxe Lockout Kit - Standard and Needle	(3) #7103 Handle Lockout Device, (3) Patent Pending #7821 Lockout Device, (1) #7309 Carrying Bag, (3) #7030 Red Lockout Padlock, (1) #7320 Cable Padlock With 2' Cable, (10) #7343 Lockout Tags, (10) Cable Ties	8"H x 7"W x 3D

Laboratory Ball Valve Lockouts

- ZING's patent-pending ball valve lockouts are commonly used in laboratory settings to control access to gas lines, water supplies, chemical flows, and other hazardous substances
- Device is used to secure ball valves in the off (closed) position to prevent accidental or unauthorized operation of the valve
- Made in the USA from durable PETG red plastic
- Features a 1" diameter opening that fits over the valve body
- Accommodates a single padlock with up to a $\frac{5}{16}$ " diameter shackle

Part #	Dimensions
7821	3.5"H x 3.125"W x 1.125"D

Crane/Hoist Control Plug Lockout Device Covers

- Multiple-button hoist control lockout effectively prevents users from operating hoist controls, such as those commonly used to operate cranes
- Device includes a red fabric cover and plastic pipe insert, which prevents buttons from being pressed and controls from being accessed
- Red fabric cover is used to fully enclose a hoist control or plug and features a cinching strap that accepts up to 6 padlocks

Part #	Description	Cover Dimensions	Pipe Insert Dimensions
7364	Hoist Control / Plug Lockout, Fabric Cover with Pipe Insert	18"H x 9"W	12"H x 5"W
7365	Hoist Control / Plug Lockout, Fabric Cover with Pipe Insert	25"H x 9"W	20"H x 5"W
7621	Hoist Control / Plug Lockout, Cover Only	18"H x 9"W	-
7622	Hoist Control / Plug Lockout, Cover Only	25"H x 9"W	-

6072

6074

6073

Crane/Hoist Lockout Tagout Kits

- Specialized safety kits used to safety isolate and control energy sources on crane hoists (or similar lifting equipment) during maintenance, repair or inspection
- Each kit provides devices, padlocks and hasps in a portable, easy to transport package

Part #	Description	Contents
6072	Small Crane/Hoist Lockout Kit	(1) #700KD-RED Safety Padlock, 1.5" Shackle, (1) #7619 Lockout Hasp, 1" Jaw Diameter, (1) #7369 Circuit Breaker Lockouts - Set of 3, (1) #7364 Small Crane/Hoist/Pendant Control Lockout, (1) #7343 Safety Lockout Tags -10/pk
6073	Large Crane/Hoist Lockout Kit	(1) #700KD-RED Safety Padlock, 1.5" Shackle, (1) #7619 Lockout Hasp, 1" Jaw Diameter, (1) #7369 Circuit Breaker Lockouts - Set of 3, (1) #7365 Large Crane/Hoist/Pendant Control Lockout, (1) #7343 Safety Lockout Tags -10/pk
6074	Deluxe Crane/Hoist Lockout Kit	(1) #7342 Large Duffel Bag, (3) #700KD-RED Safety Padlock, 1.5" Shackle, (2) #7619 Lockout Hasps, 1" Jaw Diameter, (2) #7620 Lockout Hasps, 1.5" Jaw Diameter, (1) Circuit Breaker Lockouts - Set of 3, (1) #7364 Small Crane/Hoist/Pendant Control Lockout, (1) #7365 Large Crane/Hoist/Pendant Control Lockout, (1) #7343 Safety Lockout Tags - 10/pk

All Kit Components Can be Ordered Separately

Deluxe Steel Group Lockout Box, 13-Lock

- Portable, safety device used during group lockout/tagout procedures to secure multiple energy isolation points when more than one person is working on the same equipment
- Accepts 12 padlocks, plus 1 on the latch
- Unique inner shelf provides extra security for stored keys
- Retractable handle for easy transportation and storage

Part #	Description	Dimensions
6061Y	Group Lockout Box, Steel, Yellow	6.25"H x 9"D x 4"W
6061R	Group Lockout Box, Steel, Red	6.25"H x 9"D x 4"W

Group Lockout Box, 7-Lock

- Box allows multiple workers to lock out shared equipment safely and efficiently
- Rugged steel construction
- Accommodates up to 7 padlocks

Part #	Dimensions
7286	6.25"H x 4.25"D x 4.25"W

Group Lockout Box, 13-Lock

- Portable, safety device used during group lockout/tagout procedures to secure multiple energy isolation points when more than one person is working on the same equipment
- Made out of durable steel
- Accepts 12 padlocks, plus 1 on the latch

Part #	Description	Dimensions
7299R-UN	13-Lock Group Lockout Box, Steel, Red	6"H x 10"W x 4"D
7299Y-UN	13-Lock Group Lockout Box, Steel, Yellow	6"H x 10"W x 4"D
7697	13-Lock Group Lockout Box, Steel, Red	7"H x 10"W x 7"D

7299

Group Lockout Box, 17-Lock

- Portable, safety device used during group lockout/tagout procedures to secure multiple energy isolation points when more than one person is working on the same equipment
- Features a lockable storage compartment and a group lockout compartment
- Made from heavy-duty powder-coated steel for extra rust resistance
- Clear, durable lexan window with keyhole slot
- Accepts 17 locks

Part #	Dimensions
7635	7.1"H x 13.6"W x 7.75"D

Group Lockout Box, 26-Lock

- Group lockout box supports compliance in group lockout operations
- Made from durable steel, and features a clear sliding lid that can be locked when the box is closed
- Accepts up to 26 padlocks

Part #	Dimensions
7630	5.5"H x 9.25"W x 4.25"D

Portable Wall-Mount Group Lockout Box, 13-Lock

- Used when multiple workers are involved in servicing or maintaining equipment that has been locked out
- Wall mount makes it ideal for centralized control of lockout procedures, while it's sturdy handle makes the box portable should you choose not to mount it
- Made of durable steel
- Accommodates up to 12 padlocks, plus 1 on the latch

Part #	Dimensions
7288	7"H x 10"W x 4"D

Wall-Mount Group Lockout Box

- Used when multiple workers are involved in servicing or maintaining equipment that has been locked out
- Wall mount makes it ideal for centralized control of lockout procedures, while it's sturdy handle makes the box portable should you choose not to mount it
- Mounting holes are pre-drilled, and hardware is included
- Made from durable steel with a clear plastic window

Most units have handles for portability

Part #	Description	Dimensions	Padlock Capacity
7366	Group Lockout Box, Steel, Red	10.5"H x 18"W x 4.5"D	12
7386	Group Lockout Box, Steel, Red	9.25"H x 8.10"W x 2.35"D	7
7387	Group Lockout Box, Steel, Red	13.35"H x 8.12"W x 3.10"D	9
7388	Double Lockout Box, Steel	7"H x 12"W x 2"D	12
7389	Group Lockout Box, Plastic	11"H x 13"W x 4"D	27
7819	Group Lockout Box, Steel, Red	7"H x 10"W x 4"D	44
7813	Group Lockout Box - 13-Hole Portable or Wall Mount	12"H x 3"W x 6"D	13

Centralized Control for Safer Group Lockouts

Stainless Steel Group Lockout Box, 13-Lock

- Portable, safety device used during group lockout/tagout procedures to secure multiple energy isolation points when more than one person is working on the same equipment
- Made out of durable stainless steel and polycarbonate
- Accommodates up to 12 padlocks plus 1 on the latch

Part #	Dimensions
7636	7.25"H x 10.75"W x 4.35"D

Compact Stainless Steel Group Lockout Box, 7-Lock

- Protects workers in group maintenance and repair operations
- Features all stainless steel construction for challenging environments
- Accommodates up to 6 padlocks on the box plus 1 on the latch

Part #	Dimensions
7640	7.25"H x 5.5"W x 4.35"D

Key Group Lockout Box, 20-Lock

- Constructed from powder-coated special grade steel sheets, ensuring maximum durability
- Holds up to 50 keys and 20 individual padlocks
- Transparent window provides clear visibility of the keys and documents stored inside
- Features a stainless-steel handle on the top for easy carrying
- Equipped with pre-drilled holes and includes the necessary hardware for convenient wall mounting

Part #	Dimensions
7839	21.25"H x 18"W x 3.1"D

Uncoated Safety Lockout Hasps

- Used when more than one employee needs to work on equipment with energy sources
- All hasps accommodate up to 6 padlocks with shackle diameters up to 0.35"
- **#7106 and #7107** - powder coated and include anti-pry tabs for more secure lockouts
- **#7108 and #7109** - features all plastic construction making them fully dielectric
- **#7127 and #7128** - use all aluminum construction providing strength and light weight
- **#7102** - combines a plastic hasp with a tag using a write-on Danger label

Part #	Description	Dimensions
7106	1" Lockout Hasp, Steel with Tabs	5"H x 1.5"W x 0.5"D
7107	1.5" Lockout Hasp, Steel with Tabs	4.5"H x 1.5"W x 0.5"D
7108	1" Lockout Hasp, Plastic	5"H x 1.5"W x 0.5"D
7109	1.5" Lockout Hasp, Plastic	4.5"H x 1.5"W x 0.5"D
7127	1" Lockout Hasp, Aluminum	5"H x 1.5"W x 0.5"D
7128	1.5" Lockout Hasp, Aluminum	4.5"H x 1.5"W x 0.5"D
7102	Hasp/Tag Combo Device	7"L x 3"W x 0.6"D

Coated Safety Lockout Hasps

- Coated hasps are highly visible and easy to grip
- All hasps accommodate up to 6 padlocks with shackle diameters up to 0.35"
- Hasps feature durable steel or lightweight aluminum construction
- **#7644 and #7645** include anti-pry tabs for more secure lockouts

Part #	Description	Dimensions
7619	1" Coated Steel Hasp, Red	4.5"H x 1.5"W x 0.5"D
7620	1.5" Coated Steel Hasp, Red	5"H x 1.5"W x 0.5"D
7642	1" Coated Steel Hasp, Yellow and Black	4.5"H x 1.5"W x 0.5"D
7643	1.5" Coated Steel Hasp, Yellow and Black	5"H x 1.5"W x 0.5"D
7644	1" Coated Steel Hasp with tabs, Red	4.5"H x 1.5"W x 0.5"D
7645	1.5" Coated Steel Hasp with tabs, Red	5"H x 1.5"W x 0.5"D
7545	1" Coated Aluminum Hasp, Red	4.5"H x 1.5"W x 0.5"D
7546	1.5" Coated Aluminum Hasp, Red	5"H x 1.5"W x 0.5"D

High Capacity Safety Lockout Hasps

- High capacity lockout hasps help keep workers safe when larger groups of workers are affected by the same energy isolation point
- Durable steel with high visibility red powder coating
- #7617 uses a stainless steel shackle for added durability

Part #	Description	Dimensions
7240	Lockout Hasp, 12 Hole, Steel	8.5"H x 2.25"W x 0.3"D
7241	Lockout Hasp, 24 Hole, Steel	14"H x 2.25"W x 0.3"D
7617	Lockout Hasp, Stainless Steel	3.5"H x 2.5"W x 0.3"D

Labeled Safety Lockout Hasp

- Combines a tag style label and hasp into a single convenient unit
- Lightweight but durable aluminum in high visibility red
- Accommodates 10 padlocks and has a 1" diameter hole with a 0.25" shackle

Part #	Description	Dimensions
7361	Hasp/Tag Combination Device, Aluminum	7.5"H x 3"W x 0.4"D

Stainless Steel Safety Lockout Hasps

- Used when more than one employee needs to work on equipment with energy sources
- Provides maximum durability and corrosion resistance when needed for challenging lockout applications

Part #	Description	Dimensions
7242	Die-Cast Hasp	3.5"H x 2.5"W x 0.3"D
7660	1" Lockout Hasp	4.5"H x 1.5"W x 0.4"D
7661	1.5" Lockout Hasp	5"H x 1.5"W x 0.4"D
7601	1" Anti-Pry Hasp	3.5"H x 2.4"W x 0.5"D
7602	1.5" Anti-Pry Hasp	6.75"H x 2.4"W x 0.5"D
7664	1" & 1.5" Dual Hasp	5.4"H x 1.5"W x 0.4"D
7665	2" Hoop Hasp	5.5"H x 1.7"W x 0.4"D

Flexible Dielectric Safety Lockout Hasps

- Made from durable, lightweight plastics that do not conduct electricity
- Flexible body allows the hasp to conform around irregular shapes, tight spaces, or awkward lockout points, while still maintaining their structural integrity
- Accommodates multiple padlocks
- Ideal for use on electrical panels, miniature circuit breakers, switches, and panel handles

Part #	Description	Dimensions
7270	Lockout Hasp, Plastic, 3 Hole	4"H x 1.75"W x 0.25"D
7512	Lockout Hasp, Plastic, 6 Hole	8"H x 1.75"W x 0.35"D
7112	Lockout Hasp, Plastic, 6 Hole	7"H x 2"W x 0.35"D

Double-Ended Safety Lockout Hasps

- Combine the two standard sized hasps into one convenient device
- #7269 is durable steel with 1" and 1.75" openings
- #7616 is non-sparking aluminum with 1" and 1.5" openings
- Accommodates multiple padlocks

Part #	Description	Dimensions
7269	Double-Ended Hasp, Steel, 6 Hole	6"H x 2.25"W x 0.4"D
7616	Double-Ended Hasp, Aluminum, 10 Hole	6"H x 2"W x 0.4"D

Group Safety Lockout Hasp

- Completely unique device that combines group lockout with hasp functionality providing the most compact group lockout capabilities in the market
- Constructed of high strength steel with red powder coated finish
- Accommodates up to 9 padlocks with a key slot that holds up to 4 keys

Part #	Description	Dimensions
7662	1.5" Group Lockout Hasp	7.9"H 1.7"W x 2"D

7273

7274

7275

7670

Wedge Ball Valve Lockout Devices

- Used to secure quarter-turn ball valves in the “off” (closed) position, preventing accidental or unauthorized operation during maintenance or servicing
- Device clamps over the valve handle, preventing it from being moved from the closed position, and then is secured with a padlock
- One side of the lockout installs flush with the pipe to prevent the handle from turning when pressure is applied

Part #	Description	Valve Size	Dimensions
7273	Ball Valve Lockout, Steel, Accepts 8 Padlocks	Fits 0.25" - 1" Valves	3.5"H x 2.5"W x 2.1"D
7274	Ball Valve Lockout, Steel, Accepts 15 Padlocks	Fits 1.25" - 3" Valves	5.5"H x 5"W x 5"D
7275	Ball Valve Lockout, Plastic, Accepts 8 Padlocks	Fits up to 1.5" Valves	6"H x 5"W x 4.5"D
7670	Ball Valve Lockout, Steel, Accepts 6 Padlocks	Fits 0.25" - 1" Valves	6"H x 2"W x 0.5"D

7633

7634

Adjustable Ball Valve Lockout Devices

- Designed to lock out a quarter size valves of varying sizes and handle dimensions (round, square or flat) up to 1¼" thick x 1⅝" wide, using an adjustable mechanism
- Versatile device can be tightened, resized, or re-positioned to fit different lengths, diameters, or valve body sizes
- Valves can also be locked in the ON or fixed positions for non-lockout applications
- Nylon and stainless steel construction

Part #	Description	Fits Handle Sizes	Dimensions
7633	Adjustable Ball Valve, with 4.5" Arm	Up to 1" Wide, 0.6" Thick	10"H x 3"W x 7.2"D
7634	Adjustable Ball Valve, with 5.75" Arm	Up to 1.6" Wide, 1.1" Thick	10"H x 3.5"W x 7.5"D

7249

7251

7250

Clamp-On Ball Valve Lockout Devices

- Used to secure ball valves in the “off” (closed) position, preventing accidental or unauthorized operation during maintenance or servicing
- Device covers the valve handle, preventing it from being moved from the closed position, and then is secured with a padlock
- Sleeves inside the cover adjust to grip valves
- Fits most common ball valves
- Non-conductive and resistant to extreme weather & temperature conditions

Part #	Description	Valve Sizes	Dimensions
7249	Ball Valve Lockout	Fits Valves from 0.38" to 1.4" Diameter	8"H x 3.75"W x 4"D
7250	Ball Valve Lockout	Fits Valves from 1.5" to 2.5" Diameter	11"H x 4"W x 5"D
7251	Ball Valve Lockout	Fits Valves from 2" to 8" Diameter	14"H x 4.75"W x 6"D

Prevent Unauthorized Valve Operation

Lockout Made Easy

Pull Handle Butterfly Valve Lockout Device

- Designed to effectively secure popular pull handle butterfly valves commonly used in industries such as food and beverage, water utilities, chemical and pharmaceutical
- Allows you to secure the valve handle in any desired position, whether fully closed, partially open, or fully open, providing flexibility and control over the valve's operation
- Features holes that allow the installation of up to 3 padlocks
- Constructed from strong polypropylene plastic, the device is resistant to cracking, abrasion, and various chemical products, ensuring its durability and longevity in demanding industrial environments
- Designed to withstand extreme weather conditions and temperature fluctuations, making it suitable for both indoor and outdoor use

Part #	Dimensions
7514	8"H x 1.63"W x 1.5"D

Standard Butterfly Valve Lockout Device

- A reliable and effective solution for locking most types of butterfly valves commonly found in various industries
- Specifically designed to prevent the compression handle of the butterfly valve from being squeezed, effectively preventing the operation of the valve. The wedge on the slider section securely holds the handle in place, ensuring proper lockout and preventing unauthorized valve activation
- Made from strong polypropylene plastic, providing exceptional durability and resistance to cracking, abrasion, solvents and other chemical products commonly found in industrial environments
- Non-conductive and designed to withstand extreme weather and temperature conditions, making it suitable for outdoor applications
- Equipped with multiple padlock holes, allowing for secure locking

Part #	Dimensions
7605	12"H x 4"W x 2.75"D

7103

7246

7807

Gate Valve Lockout Devices

- Eco gate valve lockouts are made from heavy-duty, 100% recycled plastic that can accommodate 3 padlocks, with shackles up to $\frac{3}{8}$ " diameter
- Gate valve lockouts are made from abrasion-resistant polyurethane or steel
- When lockouts are secured, they rotate freely around the hand wheel and prevent the valve wheel from being turned

Part #	Description	Dimensions	Padlock Capacity
7103	Eco Gate Valve Lockout, fits wheels from 1"-2.5"	2.7"H x 3.5"W x 1.45"D	3
7104	Eco Gate Valve Lockout, fits wheels from 2.5"-5"	5.75"H x 6.25"W x 1.45"D	3
7246	Gate Valve Lockout, fits wheels from 5"-6.5"	6.75"H x 8.5"W x 2"D	3
7247	Gate Valve Lockout, fits wheels from 6.5"-10"	10.75"H x 12.5"W x 2.5"D	3
7248	Gate Valve Lockout, fits wheels from 10"-13"	14.5"H x 16.5"W x 2.75"D	3
7807	Gate Valve Lockout, Steel, fits wheels from 1-2.5"	3"H x 3.25"W x 1.6"D	2
7808	Gate Valve Lockout, Steel, fits wheels from 2.5-5"	5.9"H x 6"W x 1.6"D	3
7809	Gate Valve Lockout, Steel, fits wheels from 5-6.5"	6.9"H x 8.2"W x 2.2"D	4
7810	Gate Valve Lockout, Steel, fits wheels from 6-10"	10.5"H x 11.5"W x 3"D	4
7811	Gate Valve Lockout, Steel, fits wheels from 10-13"	14"H x 14.8"W x 3"D	4

7271

7272

Adjustable Gate Valve Lockout Devices

- Accommodates multiple sizes of gate valves that range from 1" to 6.5" or 6" to 15" making it more versatile than fixed size gate valve lockouts
- Made of durable polypropylene
- Resistant to extreme temperature changes (-13°F to 194°F)

Part #	Description	Dimensions
7271	Adjustable Gate Valve Lockout, Fits Valves from 1" to 6.5"	5"H x 7"W x 2"D
7272	Adjustable Gate Valve Lockout, Fits Valves from 6" to 15"	17"H x 20"W x 4"D

Lockout Multiple Energy Sources with One Device

Exclusive to ZING®

Universal Multi-Purpose Lockout Device

- Allows workers to perform several lockout functions with one convenient device
- Can effectively lock out plugs, gas cylinder shut-off valves, and electric or propane powered forklifts
- Accommodates up to 6 padlocks
- Made in the USA from 100% recycled plastic and supports OSHA standard 1910.147

Part #	Dimensions
7294	3"H x 4.25"W x 7.25"L

Applications Include:

Plug Lockout

- 120 Volt Plug
- 250 Volt-Sp Plug
- 15-60 Amp 3P Plug

Electrically-powered Forklifts

- Battery Plug 50-350 AMP
- Starter Battery Negative(-) Terminal

Cylinder Lockout

- Fits all standard gas cylinder wheels

Gas-powered Forklifts

- LP Gas Cylinder Shutoff Valve
- LP Gas Tank Coupling

Cylinder Lockout Devices

- Prevents unauthorized or accidental opening of gas cylinders ensuring that no gas can be released while equipment is being serviced or stored
- Fit over neck rings up to 3½" diameter and valve stems to 1¼"
- Accommodates 3 padlocks with shackles up to 5/16" diameter
- #7311 and #7312 indicate fill levels to ensure correct handling procedures

Part #	Description	Dimensions
7101	Cylinder Lockout	5"H x 5"W x 7"D
7311	Cylinder Lockout, Full Status	4"H x 4"W x 6"D
7312	Cylinder Lockout, Empty Status	4"H x 4"W x 6"D

7101

7311

7312

7105

Eco Electrical Plug Lockouts

- Prevent electrical cords from being inserted into an outlet during maintenance or repair operations
- Accommodates 3 padlocks with shackles up to $\frac{5}{16}$ " diameter
- Made in the USA from recycled plastic and are UL Validated for recycled content supporting sustainability initiatives and LEED credits
- **#7100** - universal fit closure that accepts cords up to $1\frac{1}{4}$ " diameter, and up to 3"W x $5\frac{1}{2}$ "L plugs and includes a bilingual English/Spanish instruction label that reads: "DO NOT PLUG IN"
- Additionally, **#7100** Anti-pry tabs secure lids for maximum protection, and the tapered design can be nested
- **#7105** - clam style closure accepts cords up to $\frac{1}{2}$ " diameter and up to 2"W x 3"L plugs

7100

Part #	Description	Dimensions
7105	Eco Electrical Plug Lockout, Small	3.5"H x 3.75"W x 2.5"D
7100	Eco Electrical Plug Lockout, Large	7"H x 5"W x 5"D

7627

7628

Electrical Plug Lockouts

- Encases the electrical plug preventing them from being inserted into an outlet during maintenance or repair operations
- Accommodates 2 (**#7628**) or 4 (**#7627**) padlocks with shackles up to $\frac{5}{16}$ " diameter to allow for multiple padlocks to be applied
- Fits both standard and oversized plugs, including 110V for **#7628** and 220V/550V for **#7627**

Part #	Description	Dimensions
7627	Large Electrical Plug Lockout, Fits Cord Diameter up to 1"	3.5"H x 3.75"W x 2.5"D
7628	Small Electrical Plug Lockout , Fits Cord Diameter up to 0.5"	3.5"H x 3.2"W x 2"D

Electrical/Pneumatic Plug Lockout

- Flexible device works on a variety of large and small electrical plugs plus locks out male air hose connectors
- Designed to fit "necked down" pneumatic male fittings commonly found on compressed air hoses
- Suitable for 110v, 220v and 550v plugs
- Accommodates 4 padlocks with up to .25" diameter shackles

Part #	Dimensions
7629	6.5"H x 5.5"W x 4"D

From Small to Large...ZING® Offers Plug Lockout Solutions For Every Need

Electrical Plug Lockout

- Plug lockout device works with standard 110-120 volt two-prong plugs with or without the ground, polarized and non-polarized
- Available in keyed different or keyed alike and comes with two keys

Part #	Description	Dimensions
7397	Plug Lockout-Prongs, Keyed Different	2"H x 1.38"W x .88"D
7397-KA	Plug Lockout-Prongs, Keyed Alike	2"H x 1.38"W x .88"D

Detachable Power Cord Electrical Plug Lockout

- Convenient device designed for securing power cord sockets on various equipment, such as computers, test instruments, power supplies, monitors, and lab equipment
- Constructed with rugged materials such as stainless steel, PVC, and nylon, providing durability and resistance to corrosion
- Specifically designed to fit the IC 60320 type input power connector, which is commonly used in many electronic devices with removable power cords
- Rotate the knob to tighten the grip of the device. Once put in place, apply a personal padlock, allowing for individual lockout and security applications

Part #	Dimensions
7318	3"H x 1.5"W x 1.25"D

Slide Style Electrical Plug Lockouts

- Encases the electrical plug preventing them from being inserted into an outlet during maintenance or repair operations
- Features a slide and lock closure for a more secure lockout
- Made from heavy-duty polypropylene material
- Accommodates 4 padlocks with shackles up to $\frac{5}{16}$ " diameter

Part #	Description	Dimensions
7655	Small Electrical Plug Lockout, Fits Cord Diameter up to 1.2"	7.3"H x 4.2"W x 2.9"D
7656	Extra-Large Electrical Plug Lockout, Fits Cord Diameter up to 1.4"	12.4"H x 6.4"W x 5"D

7655

7656

Clamp-on Circuit Breaker Lockouts

- Work on a wide variety of single-pole and internal-trip multi-pole breakers
- Thumbscrew design for easy installation: simply tighten the lockout securely onto switch tongue, pull the cover over the thumbscrew and lock in place
- Accepts lock shackles up to $\frac{9}{32}$ " in diameter
- Made of durable plastic (polypropylene) and impact-modified nylon
- Cleats are included

Part #	Description	Dimensions
7256	120/277V Clamp-on Breaker Lockout, with cleat	2"H x 1.25"W x 1.5"L
7257	480-600V Clamp-on Breaker Lockout, with cleat	2.75"H x 2.25"W x 2"L
7258	Oversize Breaker Lockout, 480/600V, Switches up to 2 $\frac{1}{4}$ " wide and $\frac{7}{8}$ " thick	4"H x 3.75"W x 3"L
7369	Clamp-on Breaker Lockout Set. Includes part #s 7256, 7257, and 7258	6"H x 4.5"W x 2.75"L

Circuit Breaker Lockouts

- **#7284**: fits directly into the switch and fits most common single-pole breakers. To apply, mount in place over "off" position switch and secure with a padlock
- **#7285**: 120/277 Multi-pole circuit breaker. Requires the breakers to be connected with a cross bar
- **#7606**: Single-pole lockout device that fits circuit breaker toggles up to $\frac{1}{2}$ " wide without a recess hole in the toggle. Made from durable plastic. Fast and easy to install
- **#7611**: Double pole circuit breaker lockout accommodates larger breakers
- **#7607**: 120/277 Clamp-on circuit breaker lockout fits most multi-pole breakers that employ a tie bar. Durable nylon construction with a stainless steel screw
- **#7803**: Locks out flip switches to $\frac{1}{2}$ " x $1\frac{1}{2}$ "

Part #	Description	Dimensions
7284	Top Slide Single-pole Circuit Breaker Lockout Device	0.8"H x 2.25"W x 2.25"L
7285	Multi-pole Circuit Breaker Lockout Device	0.8"H x 1.9"W x 2.6"L
7606	Single-pole Circuit Breaker Lockout Device	0.75"H x 1.1"W x 2.3"L
7607	Universal Multi-pole Circuit Breaker Lockout	1.1"H x 1.25"W x 2.25"L
7611	Double-pole Lockout for Large Breakers	1"H x 1.8"W x 2.4"L
7803	Large Flip Switch Breaker Lockout	2.4"H x 4"W x 0.75"L

Eco Circuit Breaker Lockouts

- Slide-on feature allows the device to be securely mounted to a wide range of breakers
- Single-pole (110/220 voltage) and multi-pole (120/277 voltage) models fit pole switches 0.3" - 0.6" high, 0.35" - 0.44" deep, with or without a hole
- Each breaker lockout will accommodate 1 padlock, with up to a $\frac{9}{32}$ " shackle diameter
- Includes a highly visible lockout label, "DO NOT OPERATE"
- Made in the USA from recycled plastic

Part #	Description	Dimensions
7110	Single-Pole Circuit Breaker Lockout, 3/pack	1"H x 2"L x 3/4"W
7111	Multi-Pole Circuit Breaker Lockout, 3/pack	1"H x 2"L x 1-5/8"W

7110

7111

Pin In & Pin Out Breaker Lockouts

- Feature a compact design for tight breaker panels
- Designed to provide a safe and effective method for locking out smaller circuit breakers
- Uses pins to act as anchoring points by securing it in place and preventing the switch from moving
- Accommodates 1 safety padlock
- Includes a highly visible safety label, "DO NOT REMOVE"
- Tools are NOT required for installation

7259

7260

7261

Part #	Description	Dimensions
7259	Pin In Circuit Breaker Lockout	1"H x 2"L x 3/4"W
7260	Pin Out Circuit Breaker Lockout	1"H x 2"L x 3/4"W
7261	Pin Out Wide Circuit Breaker Lockout	1"H x 2"L x 3/4"W
7262	Combo Pack (3 Devices: Pin In, Pin Out, and Pin Out Wide)	1"H x 2"L x 3/4"W

ABB Circuit Breaker Lockouts

- Designed for residual-current circuit breakers (RCCBs)
- Secures single or multi-pole RCCBs against unauthorized energization

Part #	Dimensions
7317	2"H x 1.75"L x 0.38"W

Circuit Breaker Lockout Set

- Set of 5 circuit breaker lockout devices safely locks out single and multi-pole breakers
- Each device accepts one padlock
- Screwdriver required for installation

Part #	Dimensions
7313	3"H x 2"L x 4"W

Europa Circuit Breaker Lockout

- Effectively locks out miniature circuit breakers, residual current circuit breakers, and residual-current circuit breakers with overcurrent protection
- Accommodates 1 padlock

Part #	Dimensions
7314	1"H x 1.5"L x 3"W

Universal Multi-Function Circuit Breaker Lockout

- Fits most miniature circuit breakers and main switches
- Extra length clearance on the toggle side allows the device to be used on standard breakers with long toggles
- Opposite side accommodates thicker main switches

Part #	Dimensions
7315	1"H x 2"L x 2.5"W

Merlin Gerin Circuit Breaker Lockout

- Model-specific fit designed to match the dimensions and toggle design of Merlin Gerin breakers
- 4c breakout lockout engages in the slot behind the switch toggle, effectively locking out the switch
- Device measures 2" x 2" and accepts up to 3 padlocks

Part #	Dimensions
7316	0.25"H x 2"L x 2"W

Mini Circuit Breaker Lockout

- Effectively locks out ISO/DIN miniature circuit breakers
- Made from durable aluminum
- Accommodates 1 padlock with a maximum shackle diameter of $\frac{9}{32}$ "

Part #	Dimensions
7263	0.75"H x 0.5"W x 1"L

Snap-On Circuit Breaker Lockout

- Locks out 120V breakers with holes in the switch tongue
- No tools are required for installation
- The two ends of the device snap together, which can then be locked out with a lockout padlock

Part #	Dimensions
7513	2"H x 0.75"W x 0.25"L

Schneider Circuit Breaker Lockout

- Designed to be applicable to a variety of miniature circuit breakers, commonly used for locking Schneider miniature circuit breakers
- Easy locking mechanism: Slide your fingers lightly to clamp the stainless-steel pin onto the small holes on both sides of the circuit breaker toggle, allowing for easy lockout without the need for tools
- Constructed from durable nylon material, ensuring long-lasting endurance and strength
- Suitable for installation on both single-pole and multi-pole breakers and accommodates padlocks with a shackle diameter of up to $\frac{1}{4}$ "

Part #	Dimensions
7866	1.1"H x 0.7"W x 0.7"L

Miniature Circuit Breaker Lockout - Yellow, Siemens

- Provides a safe and effective method for locking out Miniature Circuit Breakers without the need for a screwdriver
- Specifically designed for use on Siemens miniature circuit breakers but can work on other brands of MCBs as well
- Easy installation with the help of the twister screw mechanism
- Suitable for application on both single-pole and multi-pole breakers

Part #	Dimensions
7639	1"H x 1.8"W x 0.4"L

Circuit Breaker Lockout - ABB Tmax T1-T2-T3 MCCB (Molded Case Circuit Breaker)

- Can be used with T1-T2-T3 molded case circuit breakers
- Once attached, the lockout prevents the circuit breaker's lever from opening (For use when the circuit breaker is in the 'off' position).
- Accommodates three padlocks with shackle diameters of up to .27" can be attached to the lockout
- Easy installation with the help of the twister screw mechanism
- Suitable for application on both single-pole and multi-pole breakers

Part #	Dimensions
7530	0.5"H x 3"W x 2.5"L

Fuse Lockouts

- **#7637** and **#7638** – Made from durable, non-conductive materials and designed specifically for E-style fuses
- **#7609** and **#7610** – Made from durable plastic and accepts 1 safety tag. Designed to be placed where fuses have been removed, thereby preventing accidental insertion of fuses
- **#7609** – fits fuse sizes of $\frac{13}{16}$ ", $\frac{11}{16}$ ", and blade-type fuses
- **#7610** – fits fuses sizes of $\frac{1}{4}$ ", $\frac{9}{32}$ ", $\frac{13}{32}$ ", and $\frac{9}{16}$ "
- **#7691** and **#7692** - clamp on to fuse holders using a small screw. Applying a padlock prevents access to the screw, thereby locking the device into place

Part #	Description	Dimensions
7637	Fuse Holder Lockout, Round/Bottle	E14 or E18
7638	Fuse Holder Lockout, Round/Bottle	E27 or E33
7609	Fuse Blocker, 4-Way	1.75"H x 1.75"W x 0.75"D
7610	Fuse Blocker, 2-Way	3.25"H x 3"W x 1.25"L
7691	Fuse Holder Lockout	2.25"H x 1.0"W x 0.5"D
7692	Fuse Holder Lockout, Slim	2.25"H x 1.5"W x 0.5"D

Pin & Sleeve Socket Lockout

- Ideal for locking out pin and sleeve surface-mounted or trailing sockets
- Made from durable polypropylene plastic
- Easy to use – simply insert the device into the female socket, bring over the socket flap to hold it in place, and lock out with hasp & padlock
- Lockouts are available in 4 sizes, and block sockets of 110V, 16 Amp to sockets of 500V, 63 Amp

Part #	Voltage	Description	Dimensions
7264	110-130V	Socket Lockout, Small	4"H x 2"W x 1.5"L
7265	220-240V	Socket Lockout, Medium	4.5"H x 2.5"W x 2.25"L
7266	380-415V	Socket Lockout, Large	5.25"H x 3"W x 2.5"L
7267	500V	Socket Lockout, Extra Large	7"H x 5"W x 4"L

Pin & Sleeve Plug Lockouts

- Prevents plugs from being used to energize equipment
- Easy to use - To apply, slide the device over the alignment tab on the plug rim and snap closed

Part #	Dimensions
7268	2"H x 1.25"W x 1"L

Electrical Panel Handle Lockout

- Designed to prohibit the movement of handles or levers on electrical panels
- Plastic yellow base and an adjustable stainless steel strip (1" x 11⁴/₅", with 20 holes) immobilizes handles once locked with a lockout padlock
- Recommended for all handles and levers that do not have a built-in lockout arrangement

Part #	Dimensions
7252	4"H x 2.25"W x 3"L

Knife Switch/Power Handle Lockout

- Used to lockout knife switch style power handles and does not require the device to be secured to anything other than the switch itself
- Accommodates up to 4" diameter handle bases with up to a 0.6" diameter, 5" long handle
- Includes 2 different styles of handle attachments to accommodate both round or oblong shaped handles

Part #	Dimensions
7815	7"H x 2.5"W x 2"L

Motor Protection Lockout

- Unique device used for locking out the breakers on a motor control unit by encasing the breaker
- Fits up 1.75" breaker housing
- Made of special grade alloy and ABS
- Can easily be installed with the help of a black adjustment knob at the bottom of the device
- Brass pherol gives extra life and strength to stainless steel screw that binds the lockout to the breaker
- Can be installed on variety / types of MPCB of different companies

Part #	Dimensions
7816	3"H x 4"W x 3"L

Power Handle Lockout

- Ideal for locking out electrical panel power handles.
- Fits handle diameter up to 1³/₁₆"
- Green color indicates the disconnect; red color indicates the connection
- Made from rugged high-impact plastic

Part #	Dimensions
7804	3"H x 3"W x 1.5"L

Switch/Button/Lever Lockouts

- Multi-purpose lockout devices have been designed to lock out switches, buttons, and levers without a built-in lockout provision
- Made from clear polycarbonate

The devices are available in several different designs (see chart below):

Electrical Panel Lockout - Small Square Box

Electrical Panel Lockout - Medium Square Box

Electrical Panel Lockout - Medium Square Box 45°

Electrical Panel Lockout - Medium Square Box 90°

Electrical Panel Lockout - Large Square Box

7255

7277

7280

7283

7841

3-Step Installation Process:

- 1 Using the self-adhesive backing, attach the base directly over the relevant switch, button, or lever
- 2 Place the housing unit over the base
- 3 To prevent unauthorized access, apply a lockout padlock

Part #	Description	Dimensions
7255	Key-type lockout device	3"H x 3.5"L x 3.5"W
7276	Switch/Button/Lever Lockout Device, Round, 45-degree cutouts	2.5"H x 3"L x 3"W
7277	Switch/Button/Lever Lockout Device, Round, 55-degree cutouts	3"H x 3.5"L x 3.5"W
7278	Switch/Button/Lever Lockout Device, Small Square Box	2.25"H x 2.25"L x .25"W
7279	Switch/Button/Lever Lockout Device, Medium Square Box	2.25"H x 3.1"L x 3.1"W
7280	Switch/Button/Lever Lockout Device, Medium Square Box, 45-degree cutouts	2.25"H x 3.1"L x 3.1"W
7281	Switch/Button/Lever Lockout Device, Medium Square Box, 90-degree cutouts	2.25"H x 3.1"L x 3.1"W
7282	Switch/Button/Lever Lockout Device, Large Square Box	4.15"H x 4.15"L x 4.15"W
7283	Switch/Button/Lever Lockout Device, Round, Switch up to 2", Stem up to .9"	1.65"H x 3"L x 2.1"W
7865	Switch/Button Lockout Device – Switch up to 2", Stem to 0.35"	1.65"H x 3"L x 2.1"W
7818	Switch/Button Lockout Device – Switch up to 2", Stem to 1.18"	1.65"H x 3"L x 2.1"W
7841	Selector Switch Lockout – Switch base diameter to 1.18" (30mm)	3.5"H x 3"L x 2.5"W

Push Button Lockouts

- Safe & effective method of locking out start/stop buttons
- Made from clear plastic (polycarbonate)
- **#7253** and **#7254** accommodates 1 padlock and **#7663** accommodates 2 padlocks
- Lockout labels are provided
- Easy installation

7253

7254

7663

Control Panel Lockouts

- Provide a safe and effective method for locking out panel buttons, rotary switches, and wall switches
- Designed to be permanently mounted on the panel either using screws, rivets or double-sided tape
- **#7805** and **#7806** bases are constructed from ABS and the clear top is made of polycarbonate material allowing for visibility of switch/button status, nameplates and labels
- **#7858** is constructed of steel with a 10.5"W x 7.5"H clear polycarbonate window
- All bases have mounting holes for screwing or riveting the device to the panel

7805

7806

7858

Part #	Description	Dimensions
7805	Control Panel Lockout, Single	2.5"H x 2.75"L x 2.75"W
7806	Control Panel Lockout, Double	2.5"H x 5"L x 2.75"W
7858	Control Panel Lockout, Steel	1"H x 13"L x 10"W

Electrical Panel Lockout - Circular Cover

- Round-shaped lockout device is designed to lock the racking in-out point of air circuit breakers, vacuumed circuit breakers, and other similar devices, preventing unauthorized operation
- Made of red high visibility ABS material
- Also suitable for locking switches that are recessed inside a plane surface
- Can be easily rotated in any direction and has three holes on the bottom base for fixing it with screws or rivets. Alternatively, it can be installed using strong double-sided tapes
- Features an outer diameter of 1.8", inner diameter of 1.26", lower cover circle side wall thickness of 0.27", overall thickness of 0.31" (with upper part thickness of .12" and lower part thickness of 0.2"), and a locking hole diameter of 0.27"

Part #	Dimensions
7851	1.75"H x 1.75"L x 0.3"W

6064

7613

7614

7507

7654

Wall Switch Lockout Devices

- Designed to cover wall-mounted switches and locks switches in the "on" or "off" position
- Accommodates 1 padlock each, with shackles up to $\frac{3}{8}$ " diameter
- Uses existing screws for mounting
- Universal models lockout both toggle and decora style switches

Part #	Description	Dimensions
6064	Eco Wall Switch Lockout, Red	3.5"H x 1.5"W x 0.25"L
6064-WHITE	Eco Wall Switch Lockout, White	3.5"H x 1.5"W x 0.25"L
7613	Clear Wall Switch Lockout	3.75"H x 1.5"W x 0.5"L
7614	Universal Wall Switch Lockout	4.25"H x 1.5"W x 1"D
7507	Side-Hinge Wall Switch Lockout	3"H x 1.5"W x 0.5"L
7654	Universal Wall Switch Lockout - Translucent Red	4.75"H x 1.75"W x 1"D

Pneumatic Lockout Device

- Designed to prevent pneumatic fitting from being connected to pressurized air source
- Made from stainless steel construction for corrosion resistance
- Can lockout up to 7 sizes of pneumatic fittings, accommodating nearly all pneumatic fittings commonly used in manufacturing facilities
- Accepts up to 2 padlocks with a shackle diameter up to $\frac{9}{32}$ "
- Easy to install by simply enclosing the fittings between the two jaws and applying a lockout padlock

Part #	Dimensions
7631	3"H x 7.25"W x 0.25"L

Pneumatic Lockout Device - 3 Way

- 3-side device is designed to isolate pneumatic energy and prevent reattachment of male fittings to pressurized air sources, without the expense of installing in-line lockout valves
- Features multiple holes for attaching padlocks with up to $\frac{1}{4}$ " shackle diameter, ensuring secure installation

Part #	Dimensions	For Male Fittings:
7632	3"H x 3"W x 0.75"L	$\frac{1}{4}$ ", $\frac{3}{8}$ ", $\frac{1}{2}$ "

Stainless Steel Cable Lockouts

- Industrial lockout devices are made from durable stainless steel making it suitable for harsh or outdoor environments
- Designed to lockout multiple components simultaneously

7310

7243

Part #	Description	Dimensions
7243	Cable Lockout, Steel, 6.5' Cable, with Adjustable Grip	4.5"H x 4"W x 4"L, with 6.5' Cable
7310	Cable Lockout, Steel, 6' Cable	1.5"H x 4"W x 4"L, with 6' Cable

7244

7245

Multi-Purpose Cable Lockouts

- Conforms to the shape of your hand, making them easy to adjust and secure
- Easy installation - simply squeeze the handle and apply your pad lock when the cable is tight and the source is locked out
- Available with a vinyl-coated steel cable or a dielectric nylon cable

Part #	Description	Dimensions
7244	Cable Lockout, 3' Steel Cable	6"H x 6"W x 1"L
7245	Cable Lockout, 3' Dielectric Nylon Cable	6"H x 6"W x 1"L

Universal Cable Lockouts

- Provide an effective, multi-purpose solution to lockout compliance across a wide range of equipment types and isolation points
- Accommodates 6 padlocks with a maximum shackle diameter of $\frac{3}{8}$ "
- Hasp is made from durable plastic, with a coated steel cable

Part #	Description	Dimensions
7289	Cable Lockout, 3' Steel Cable	5"H x 2.5"W x 1"L
7290	Cable Lockout, 6' Steel Cable	5"H x 2.5"W x 1"L
7291	Cable Lockout, 9' Steel Cable	5"H x 2.5"W x 1"L
7292	Cable Lockout, 15' Steel Cable	5"H x 2.5"W x 1"L

Eco Cable Lockouts

- Prevents switches, valves and other energy devices from being used while equipment is being serviced or repaired
- Made in the USA from recycled plastic, with a coated steel cable
- Closed hasp hole measures 1"
- Features pry-resistant tabs for extra security
- Accommodates up to 6 padlocks with shackles up to 3/8" diameter

Part #	Description	Dimensions
7132	Cable Lockout, Steel, 6' Coated Steel Cable	0.75"H x 3"W x 7"L
7133	Cable Lockout, Steel, 10' Coated Steel Cable	0.75"H x 3"W x 7"L

Cable Lockouts, 7 Hole

- Designed with 7 individual padlock holes on its body, allowing multiple workers to secure a single energy isolation point using their personal locks
- Easy to carry and use
- Made of plastic construction with a 6' or 9' insulated steel cable

Part #	Description	Dimensions
7623	Cable Lockout, 6' Coated Steel Cable	6"H x 2"W x 0.25"L
7624	Cable Lockout, 9' Coated Steel Cable	6"H x 2"W x 0.25"L

Cable Lockouts, 4 Hole

- Designed with 4 individual padlock holes on its body, allowing multiple workers to secure a single energy isolation point using their personal locks
- Made of PVC construction and a 6' coated steel cable
- Ergonomic design features finger curves and a thumb rest

Part #	Dimensions
7626	7"H x 4"W x 1"L

Interlocking Cable Lockout

- Features a unique built-in locking mechanism that physically prevents the cable from being loosened once it's pulled tight
- Includes a vinyl-coated steel cable available in 6' and 15' lengths
- Accommodates up to 4 padlocks

Part #	Description	Dimensions
7625	Cable Lockout, 6' Coated Steel Cable	7"H x 3.25"W x 1"L
7646	Cable Lockout, 15' Coated Steel Cable	7"H x 3.25"W x 1"L

Secure, Flexible Solutions for Complex Lockout Applications

Mini Cable Lockouts

- Compact and cost-effective device for securing multiple points or small diameter lockout applications
- Using a .04" (2 mm) insulated cable, it is specially designed for installation on smaller hole sizes, ensuring versatility in lockout capabilities
- Simple operation: slide thumb switch up to adjust and down to lock
- Device body is made of durable ABS material
- Accommodates mini and standard sized padlocks with shackles up to 0.28"

Part #	Dimensions
7658	2.6"H x 1.75"W x .5"D Body with 12" Cable

Adjustable Cable Lockouts

- Secures group & multi-point lockouts and features a tough, flexible multi-stranded steel cable insulated with a clear plastic coating
- Integrated safety lockout hasp and cable are ideal for multiple circuit breaker panels and side-by-side gate valve lockouts
- 6-hole design allows multiple people to lock and manage hazards at the same time
- Plastic body resists chemicals and functions effectively in extreme conditions

Part #	Dimensions
7653-3	2.75"H x 2.75"W x 1.1"D, with 3' Cable
7653-6	2.75"H x 2.75"W x 1.1"D, with 6' Cable
7653-15	2.75"H x 2.75"W x 1.1"D, with 15' Cable

Steering Wheel Covers

- Highly visible warning covers communicate important safety information in English, Spanish, and French for broader communication
- Brass reinforced padlock or hasp hole allows you to lock the cover in place so it can't be removed accidentally or by unauthorized people
- Available in plastic and heavy-duty canvas in multiple sizes

Part #	Description	Dimensions
7345	Plastic	15.75" D
7346	Plastic	19.75" D
7347	Plastic	23.6" D
7345-HD	Heavy-duty Canvas	15.75" D
7346-HD	Heavy-duty Canvas	19.75" D
7347-HD	Heavy-duty Canvas	23.6" D

Fire Hydrant Covers

- Provides a high visibility solution for identifying fire hydrants that are "Out of Service"
- Made from heavy duty canvas with a PVC waterproof inner backing
- Includes a cut out for hydrants with snow poles/markers
- Hook and loop cinch strap in back secures cover to hydrant
- Size: 34"H x 18" diameter (56.5" Circumference)
- Red with white 4" OUT OF SERVICE legend

Part #	Dimensions
4100	34"H x 8"W x 7.25"L

Blind Flange Lockout

- Fully conceals flange bolts and prevents workers from removing the blind flange until all maintenance is complete and every padlock has been removed
- Adjustable device ensures a tight, secure fit when locked in place with a lockout padlock
- Coated aluminum construction with hardened steel rod
- Available in three sizes, covering pipe diameters from 1/2" to 24"
- Accommodates up to 8 padlocks
- Performs in temperatures from -40 to 200 degrees Fahrenheit

Part #	Nut Diameter (A)	Fits Pipe Diameters (B)
7693	3/4" to 1 1/8"	1/2" to 3"
7694	1 1/4" to 1 7/8"	3 1/2" to 12"
7695	2" to 2 3/4"	14" to 24"
7698	Lockout Set (includes 7693, 7694, and 7695)	

7398

7399

7400

Ladder Lockout Kits

- Cover wraps are used to identify ladders that are out of service or defective by deterring use through wrapping around the rungs and being secured with a padlock
- Heavy-duty canvas construction for long lasting durability
- Overall Length: 87" x 13³/₈" with 1/2" ID metal grommets at each end
- Visible area when wrapped on the ladder: 43¹/₂" x 13³/₈"
- Highly visible graphic for visual communication also features bilingual messaging: DANGER DO NOT CLIMB ON LADDER/PELIGRO NO TREPE LA ESCALERA
- Can be easily rolled up or folded when not in use
- **#7399** includes (1) Lockout 3" Shackle Padlock-Keyed Different
- **#7400** includes (1) Lockout 3" Shackle Padlock-Keyed Different, (1) Out of Service Safety Tag, and (1) Cable Lockout with 3' cable

Part #	Description
7398	Ladder Cover Heavy-duty Canvas
7399	Ladder Lockout Kit, Cover with Padlock
7400	Deluxe Ladder Lockout Kit, with Cover, 3" Shackle Padlock, Safety Tag, and Cable Lockout

Door Stop Lockout for Steel Bar Grating / Mezzanines

- This unique, patented device is a convenient choice to hold open your industrial doors
- The device locks securely into type 30-102(19-4) grating
- Durable powder coated steel for long lasting service and reliability in all weather conditions
- Includes lock out option for locking doors open during maintenance operations
- The easy locking action can stop door from front or side
- Sure grip, durable silicone handle
- Wall mount bracket included for out of the way storing when not in use

Part #	Dimensions
7840	21"H with 2.25"L x 3"W Base, 1-2" Diameter Pipe

Stem Shield Valve Covers

- Durable pipe and elastomeric foam sleeves are designed to slip over exposed valve stems providing simple, cost-effective safeguards against preventable injuries sustained when workers bump, graze, or ram into stems that project from industrial valves
- Held firmly in place with a stainless steel tether for long-lasting stability
- Covers prevents thread damage, corrosion, contamination and overspray exposure – ensuring your valves stay clean and operational
- Keeps lubrication free from debris, dirt, and water, reducing maintenance frequency and preventing wheels from tightening due to buildup
- Installs in less than 15 seconds per stem – no tools required
- Made from chemically resistant, waterproof, flexible rubber foam and stainless steel attachments
- Valves remain fully functional with shields in place
- Lightweight and portable for easy transport and storage
- Made in the USA - Proudly designed and manufactured for quality and reliability

Protects lubrication from debris and moisture, reducing maintenance

How It Works:

Simply slide the Stem Shield over an exposed stem and clip the stainless steel tether to the wheel or valve yoke casing. The installation process takes less than 15 seconds.

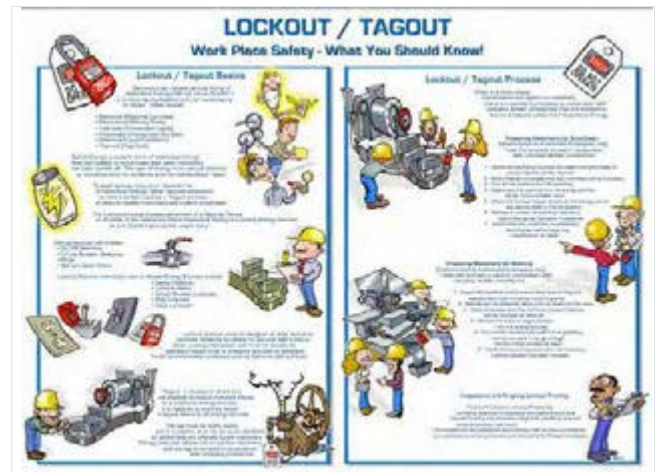

Part #	Description
7217	Stem Shield 5" fits 3"-5" Valve Stems
7218	Stem Shield 7" fits 6"-7" Valve Stems
7219	Stem Shield 9" fits 8"-9" Valve Stems
7211	Stem Shield 12" fits 10"-12" Valve Stems
7212	Stem Shield 18" fits 13"-18" Valve Stems

LOTO Safety Starts With Proper Training

Lockout Training Poster

- Provides a visual overview of Lockout/Tagout procedures
- Eye-catching graphics emphasize and reinforce key points
- Made from recycled plastic
- Measures 18"H x 24"W

Part #	Description
6065	Eco Lockout/Tagout Poster

Lockout Training Booklets

- Provide a clear overview of lockout/tagout procedures, lockout devices, group lockout, and employee responsibilities
- Quiz included to test employee knowledge

Part #	Description
6071	Lockout Training Booklet, 10/pk

Lockout Registers

- Lockout Registers help manage lockout compliance and ensure that crucial lockout information is documented per OSHA requirements
- Set includes two books: Energy Isolation Record and Equipment Issue/Return Record
- The registers ensure every aspect of the lockout process is meticulously logged and includes fields for recording data like tracking the energy sources locked out, issuance and usage of lockout products, duration of lockout, purpose, specific machines, employees involved and locations

Self-Laminating Lockout Safety Tags

- Durable tags resist water and wear, protecting critical messages in industrial environments
- Allow you to write custom messages and protect them with a clear, polyester laminate — ensuring the information won't smudge, fade, or wear off over time
- To laminate, remove the lining and press the clear laminate layer onto your text or photo
- Each tag features a reinforced grommet for sturdy hanging

Two-Part Perforated Lockout Tags

- Made from durable plastic and feature a removable stub for enhanced operational control and record-keeping
- Tag and stub have matching serial numbers
- Stub is removed when the tag is attached to a lockout point, and only the employee in possession of the stub has the authority to remove the tag
- After the job is done, stub is returned to management for verification and monitoring

Lockout Safety Tags By-The-Roll and Dispenser Boxes

- Great solution for streamlining workplace safety management, combining practicality, durability, and convenience to ensure that your important safety messages are always accessible and visible
- Water-proof tags are tear-resistant making them ideal for both indoor and outdoor use
- Tags use an easy to write on scruff resistant matte surface on both sides
- All tags are printed on both sides with space to sign, date, and add notes
- Tag dimensions are 5.5"H x 3.25"W with a 0.3" hole
- **#7867** and **#7868** - Connected end-to-end with perforations and housed in a convenient octagon shaped cardboard dispenser box
- **#7869** - Connected end-to-end with perforations and fan-folded in a cardboard dispenser box
- **#7870** - **#7873** - Contained in a bulk box
- Self-laminating tags have a polyester over-laminate that protects tag messaging

Communicate Critical Safety Messages & Encourage Compliance

Eco Tag Center

- Stores and organizes safety tags
- Features 8 durable hooks can accommodate up to 10 tags per hook
- Mounting holes are pre-drilled for easy installation
- Made in the USA from heavy-duty, impact-resistant recycled plastic
- Tags sold separately

Bright green color attracts attention and encourages use

Part #	Dimensions
2670	15"H x 15"W

Eco Safety Tags

- Constructed of heavy-duty 0.055" thick plastic
- Accepts 1 padlock each
- Made from 70% recycled materials

Wire Binder Holders

- SDS Wire Rack prominently stores safety information
- Ideal for storage of SDS binders or any safety procedures required near a job site
- Made in the USA from high-quality recycled steel
- Mounting hardware is included

Part #	Description	Dimensions
7199	Yellow	9"H x 14"W x 4.5"L
7199-WHITE	White	9"H x 14"W x 4.5"L

Eco SDS Binders

- Made from 100% post-consumer recycled materials
- Durable, chemical-resistant, easy-to-clean and almost impossible to rip or tear
- Each binder contains a heavy-duty ring assembly, which is available in three different sizes: 1.5" (up to 300 sheets), 2.5" (up to 500 sheets), and 3" (up to 600 sheets)
- Available in English and English/Spanish bilingual versions

Part #	Description	Dimensions
6030	English Only, 1.5" Ring, 300 Sheets	12"H x 10.75"L x 2"W
6031	English Only, 2.5" Ring, 500 Sheets	12"H x 11.75"L x 3"W
6032	English Only, 3" Ring, 600 Sheets	12"H x 12.5"L x 3.5"W
6033	English/Spanish (Bilingual), 1.5" Ring, 300 Sheets	12"H x 10.75"L x 2"W

Eco Signage Base

- Signage base holds parking, traffic, and policy signs firmly in place to promote safety and minimize liability and damage
- 72 lb. aerodynamic design withstands strong winds and severe weather
- Easy installation - No sand or water required
- Base will not rust, chip, crack, crumble, corrode, or need repainting
- Cone-shape design allows the base to be easily tipped and rolled to new locations
- Made in the USA from 100% post-consumer recycled tire rubber
- Limited lifetime warranty
- Square holes support posts 1³/₄" wide
- Round holes support posts with a 2³/₈" diameter
- Supports any sign up to 24" diameter
- **#7440** – Sign base weight attaches to sign base to add more stability in high-wind areas and when using larger traffic signs
- **#7443** – Yellow sign base covers, made from plastic construction, provide higher visibility
- **#7446** – Sign mounting hardware kit includes 2 bolts, 2 nuts, and 4 washers

Part #	Description	Dimensions
7423	Rubber Sign Base, with Round 2-3/8" post hole	18" W x 14"H

7447	Rubber Sign Base, includes 5' square galvanized steel post	18"W x 14"H, with 5' height post

Base with Square Hole

Sign Base Weight

From Setup to Transport: Everything Your Signage Needs

Eco Sign Base Moving Cart

- Allows sign bases to be easily moved from one location to another
- Designed to accommodate our recycled signpost bases
- Cart slips directly under the sign base, which can then be easily tilted and wheeled to a new location, using the post as a handle
- The moving cart is made in the USA from high-performance welded steel, and the wheels are made from durable, weather-proof plastic

Part #	Description
7441	Sign Base Moving Cart

Sign Posts

- Square, steel posts are sturdy, durable and rust-proof
- All four sides feature $\frac{3}{8}$ " diameter mounting holes spaced 1" apart along the center of the post, allowing customers to adjust the height of the sign
- Two signs can be mounted on opposite sides of the same post
- Available in galvanized steel and powder-coated steel
- Round PVC posts are strong, weather-proof and can be drilled upon request
- Posts are white and include caps

Part #	Description	Dimensions
7475	Galvanized Steel	1 $\frac{3}{4}$ "D x 5'H

Complete Sign Solutions

Complete Sign Kit Bundles

- Made from 99% recycled aluminum, exceeding the EPA's recommended recycled content levels
- All signs meet MUTCD standards and feature 3M Engineered Grade Prismatic reflective sheeting
- Aluminum signs are UL-E validated for recycled content
- Mounting holes are pre-drilled for easy installation
- All signs are 18"x 12" unless otherwise noted

Kit Includes:

- (1) Sign shown
 - (1) Square galvanized steel signpost (1³/₄" width x 5' height)
 - (1) Portable sign base
- Mounting hardware included

Clearly Define Traffic or Parking Zones with Rugged, Portable Sign Bases

Fillable Sign Base

- Durable, easily portable sign bases allow you to clearly mark traffic or parking arrangements
- Made in the USA from recycled materials
- Large, 3" recessed wheels for easy portability
- Stability plates keep base stable in 30-40 mph winds
- Pre-drilled holes accommodate a wide variety of signs including 9" x 12", 24" x 24", and 12" x 36"
- Can be used indoors or outdoors

Quick and easy assembly
in less than 1 minute!

Eco Parking Signs

- Made in the USA from durable, 99% recycled aluminum
- All signs meet MUTCD standards and feature 3M reflective sheeting

The reflective sheeting is available in two grades:

Engineer Grade Prismatic (EGP): Recommended for non-critical parking signs and way-finding signs

High Intensity Prismatic (HIP): Highly reflective, recommended for critical messages and nighttime use

How Many Spaces Do I Need for ADA Compliance?

Total Spaces	Minimum # of Reserved	Total Spaces	Minimum # of Reserved	Total Spaces	Minimum # of Reserved
1-25	1	101-150	5	401-500	9
26-50	2	151-200	6	501-1,000	2%
51-75	3	201-300	7	1,000+	20 + 1 for every 100
76-100	4	301-400	8		

Handicapped Stickers and Decals

- Communicate critical handicapped access information to employees, customers and visitors
- **Stickers** can be applied to doors, walls or the outside of windows
- **Decals** are designed to be placed on the inside of windows
- Made from high-quality recycled polystyrene with UV resistant inks
- Made in the USA

Description	6" x 6"	6" x 6"	6" x 6"	6" x 6"	6" x 6"
Sticker (2/pk)	2712	2714	2716	2718	2720
Decal (2/pk)	2713	2715	2717	2719	2721

Eco Danger Signs

- Available in three sustainable formats: 94% recycled aluminum, 70% post-consumer recycled plastic, or recycled self-adhesive
- Aluminum and plastic signs have pre-drilled holes for easy mounting
- Plastic signs also include adhesive mounting pads

Biohazared Signs and Labels

- Comply with OSHA regulations
- Signs warn employees, patients and visitors of dangerous biohazards, radiation, and other potentially harmful situations

Adhesive Labels

- Can be applied directly to doors, walls or the outside of windows
- Made from high-quality, recycled polystyrene with UV-resistant inks

Plastic Signs

- Made from high-quality recycled plastic
- UL Validated for recycled content
- Includes 4 mounting holes and adhesive tabs

Aluminum Signs

- Manufactured using high-quality, 94% recycled aluminum
- UL Validated for recycled content
- Includes 4 pre-drilled holes for easy mounting

Health Facility and Parking Signs

- Made from 99% recycled aluminum, exceeding the EPA's recommended recycled content level
- All Parking Signs meet MUTCD Standards
- Feature 3M™ Engineer Grade reflective sheeting
- Signs measure 18"H by 12"W and are pre-drilled for easy mounting
- UL Validated for recycled content
- Made in the USA

Eco Fire and Exit Signs

All signs meet OSHA and NFPA Life Safety Code requirements and are available in 4 eco-friendly formats, each made from recycled materials.

Aluminum Signs

- Made from high-quality 94% recycled aluminum
- UL validated for recycled content
- Includes 4 pre-drilled holes for easy mounting

Plastic Signs

- Made from high-quality 70% post-consumer recycled plastic
- UL validated for recycled content
- Includes 4 pre-drilled holes and adhesive tabs for easy mounting

Self-Adhesive Signs

- Made from high-quality, recycled polystyrene with UV-resistant inks
- Apply directly to doors, walls or the outside of windows

Glow-in-the-Dark Signs

- Made from recycled plastic with a high-performance, safety grade photoluminescent coating
- Do not require an electrical power source
- Will glow for a period of 10 hours on full charge
- Can be used indoors or outdoors
- Exceed requirements for life safety, emergency egress, and other safety standards

Glow-in-the-Dark Fire Extinguisher Backplate

- Features a glow-in-the-dark surface for extra visibility
- Features 4 mounting holes for easy installation
- Rugged recycled plastic construction
- Fire extinguisher not included

Part #	Dimensions
2671	5"H x 7"W x 0.1"D

No bulb or battery replacement needed!

Eco-Brite Glow Exit Signs

- Provides powerful illumination without an electrical power source, helping reduce injuries and ensuring a safe, organized exit during emergencies
- Photoluminescent technology absorbs and stores ambient light, so that signs remain dependably visible during power outages or smoky conditions
- Glow-in-the-dark design helps save on maintenance and electricity costs
- Signs are visible from 100 feet
- Includes two removable directional chevrons if egress path changes
- Can be surface, flag, ceiling, conduit or stem mounted
- Made in the USA from recycled plastic, which supports sustainability initiatives and LEED credits
- Non-toxic, non-radioactive
- No disposal costs
- Non-toxic and non-radioactive, ensures no disposal costs
- We might want to keep these separate bullets? Not Sure!
- Size Dimensions: 8.75" H x 15.5" L x 0.75" D
- Letter Size: 7" height and 7/8" letter stroke

Listed To

- UL 924 Emergency Lighting and Power Equipment
- NFPA Life Safety Code 101
- OSHA requirements
- International Building and Fire Code 2009, 2012, 2015
- Listed for LED lighting

ZING™ Eco Projecting Signs Provide Maximum Visibility and Safety!

Available Exclusively From ZING™!

Eco Projecting Tri-View Signs

- Feature 3 projecting sides for maximum visibility and safety
- Made in the USA from high-quality, 70% post-consumer recycled plastic and are UL validated for recycled content
- Glow-in-the-dark design illuminates for over 10 hours, exceeding the ASTM E 2072-00 standards
- Available in two sizes: Standard and Slim
- Two mounting holes and adhesive tabs included for easy installation

Description	Dimensions
Standard	7.5"H x 20"W, Projects 5"
Slim	12"H x 9"W, Projects 3"

See page 108 for sign selection!

Eco Projecting V & L Style Signs

- Feature 2 projecting sides for maximum visibility and safety
- Made in the USA from high-quality, 70% post-consumer recycled plastic and are UL validated for recycled content
- Two mounting holes and adhesive tabs included for easy installation

Description	Dimensions
V Style, Standard	7"H x 12"W, Projects 5"
V-Style, Bilingual	11"H x 7"W, Projects 5"
L Style, Standard	7"H x 2.5", Projects 7"

See page 109-110 for sign selection!

Eco Projecting Corner Style Signs

- Two-sided projecting design saves space and significantly increases visibility
- Can be easily installed on any 90-degree angle corner
- Made in the USA from high-quality, 70% post-consumer recycled plastic and are UL validated for recycled content
- Two mounting holes and adhesive tabs included for easy installation

Description	Dimensions
Corner Style	10"H x 10"W, Projects 5"

See page 109-110 for sign selection!

Eco No Smoking Signs

- Signs communicate smoking policies and rules
- **Window decals** have adhesive on the front or face of the sign, making them ideal for use on the inside of windows or other glass surfaces
- **Adhesive labels** can be applied to doors, walls, or the outside of windows
- Decals and labels are made from recycled plastic with UV-resistant inks
- **Plastic signs** are made from high quality 70% post-consumer recycled plastic, and include 4 mounting holes and adhesive tabs
- **Aluminum signs** are made from high quality, 94% recycled aluminum, and include 4 mounting holes

Green@Work Safety Signs

- Signs encourage waste reduction and energy-saving habits
- Standard 7H" x 10"W signs are recommended for most viewing applications
- 5"H x 3"W mini-signs work particularly well above light switches and water taps
- 10"H x 14"W signs are recommended for large, open areas, where longer viewing distances are expected
- Signs include adhesive mounting pads

Lean@Work Signs

- Signs encourage cost-effective, low-waste business practice
- Ideal for shop floors, training rooms, or break areas

- Made in the USA from recycled plastic and include adhesive mounting tabs
- Signs measure 10"H x 14"W, except for part #'s 2184-2186, which measure 14"H x 10"W

Industrial Can Crusher and Kit

- Made in the USA from heavy-duty nylon, stainless steel, and aluminum
- Accommodates 12oz. aluminum cans and measures 20"H x 6"W x 3-1/2"L
- Includes a 7" x 10" sign with the legend, "Please Crush Aluminum Cans"

- Optional collection barrel attachment (part # 7007), mounts directly to the bottom of the crusher and holds up to 48 cans

Part #	Description
7006	Industrial Can Crusher and Sign
7007	Can Collection Barrel, Stores 48 Cans
7008	Industrial Can Crusher Kit, With Barrel and Projecting Sign

PROTECTING WORKERS. REDUCING RISK.

Why Should You Choose ZING?

100% Hydrostatic Pressure Tested

Every eyewash unit is pressure-tested to ensure secure, leak-free connections that hold up under real-world conditions.

3rd-Party UL Verified

Independently tested and verified to meet ANSI Z358.1-2014 — so you're not just compliant, you're confident.

Built to Last

Made with durable materials and simple designs that make inspection, maintenance, and activation easy.

Quality Standards

Our eyewash components are manufactured in ISO-certified facilities, ensuring high quality products with low-impact processes.

Emergency Eye Wash & Shower Solutions

In 2021–2022, over **21,800 cases** of U.S. workers exposed to chemicals or chemical products were reported. Properly installed and maintained emergency eyewash and shower equipment plays a critical role in **minimizing injuries**, reducing downtime, and maintaining compliance in hazardous work environments.

When located correctly and supported by regular maintenance and training, these systems can significantly reduce both the **number and cost of workplace injuries**.

Placement & Installation Guidelines

- Located **within 10 seconds** reach of hazard exposure (*Approximately 55 ft.)
- **Unobstructed access** – no barriers or locked doors
- On **same level** as the hazard
- Marked with **highly visible signage**

Water Temperature and Flow Requirements

- **Tepid water** between 60 – 100° F (16-38° C)
- Minimum **15-minute flush** duration
- Flow rate at 30 PSI per ANSI Standards:
 - **Eyewash:** 0.4 GPM
 - **Eye/Face wash:** 3.0 GPM
 - **Safety shower:** 20 GPM

Maintenance and Training Requirements

- **Weekly activation and inspection**
- **Annual full inspection** for functionality & compliance
- **Employee training** on procedures and emergency use

The Importance of Emergency Eyewash & Shower Units

7.5 vs. 20.5

Difference in **number of days in hospital** when proper first aid/emergency response is not provided vs. provided.

9.5% vs. 20.1%

Difference in **mortality rates** when proper first aid/emergency response is provided vs. not (alkali burns)

19% vs. 36%

Difference in **victims needing skin grafts** when proper first aid/emergency is provided vs. not (alkali burns)

We offer a full suite of emergency solutions to fit every workplace environment:

- **Self-Contained Eyewash Units** Portable and plumb-free for flexible installation
- **Plumbed Eye & Face Wash Stations** Fast-acting rinsing solutions for critical incidents
- **Combination Units** Integrated eyewash and shower systems for full-body emergency coverage
- **Safety Showers** Full-body decontamination, built for durability and compliance
- **Signage & Accessories** Clear, compliant visuals to support safety station visibility and use
- **Replacement Parts** Maintain functionality and compliance with readily stocked components

The **ANSI/SEA Z358.1-2014** standard outlines essential requirements to ensure eyewash and shower units are effective when needed most.

Emergency Eyewash & Shower User Guide

Scan to Learn More!

9 Gallon Capacity

9 Gallon Portable Eyewash Station

- Gravity Fed
- High-visibility translucent body helps indicate water level
- Eyewash nozzles are made from ABS
- Simple pull down action activates eyewash for ease of use
- Provides 15 minutes of continuous water supply in compliance with ANSI Z358.1-2014

Part #
96001291002

15 Gallon Capacity

15 Gallon Portable Eyewash Station

- Gravity Fed
- Ease of use by simply removing the pull strap to activate the water flow
- Provides over 15 minutes of continuous water supply in compliance with ANSI Z358.1-2014

Part #
96001292001

Portable Eyewash Station Additive/Preservative Concentrate, 8 oz.

- A water preservative solution for use in self-contained emergency eye/face wash stations
- Protects against the growth of bacteria and other impurities helping ensure eyewash station water remains clean and odor-free for emergency use
- One bottle will preserve 5 to 20 gallons of potable water for up to 120 days
- An unopened bottle has a shelf life of 3 years

Part #
89022000

0.4 GPM

Self-contained eyewash units must deliver 0.4 GPM (gallons/minute) for a minimum of 15 minutes

Eye and Face Wash Wall Mount with ABS Bowl

- Wall-mounted with galvanized pipes and fittings
- Stay-open brass valve
- Corrosion-resistant paint
- Spray nozzle is made from ABS
- Features a built-in pressure compensator, filter, and aerator for precise flow
- Contrasting yellow ABS bowl and push handle improve visibility
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #

51121111

Eye and Face Wash Wall Mount with Stainless Steel Bowl

- Wall-mounted with galvanized pipes and fittings
- Stay-open brass valve
- Corrosion-resistant paint
- Spray nozzle is made from ABS
- Features a built-in pressure compensator, filter and aerator for precise flow
- Stainless steel bowl makes it ideal for challenging environments
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Stainless steel bowl is highly resistant to rust and corrosion

Part #

51121141

Faucet Mounted Eye/Face Wash

- Easily converts any faucet into an emergency eye/face wash while maintaining standard faucet use
- Simple and easy to use with conveniently located ON/OFF knob
- Durable stainless steel construction

Conveniently located ON/OFF knob

Part #

91221612

All emergency units must be within 10 seconds reach of hazard, and located on the same level. Access to the unit must be free from obstructions.

*ANSI Z358.1 Standard states the average person can walk a distance of 55 feet in 10 seconds.

Stainless steel is ideal for environments with high exposure to chemicals

Stainless Steel Eye and Face Wash Wall Mount

- Wall-mounted with stainless steel pipes and fittings
- Stay open valve
- Spray nozzle is made from ABS
- Features a built-in pressure compensator, filter and aerator for precise flow
- Stainless steel bowl and push plate makes it ideal for harsher environments
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #

51124441

Built-in cover protects the station from environmental contaminants

Stainless Steel Covered Eye and Face Wash Wall Mount

- Wall-mounted with stainless steel pipes and fittings
- Stay open valve
- Spray nozzle is made from ABS
- Features a built-in pressure compensator, filter and aerator for precise flow
- Stainless steel bowl, cover and push plate make it ideal for harsher environments
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #

51124451

Wall Mount Drench Hose

- 8' long drench hose includes wall mounting bracket
- Spray head is single nozzle design
- Meets ANSI Z358.1-2014

Part #

91221504

3 GPM

Compliant eye/face wash units must release a continuous flow of at least 3 GPM of tepid flushing fluid for a minimum of 15 minutes

Reliable Safety Where it Matters

Eye and Face Wash Pedestal Mounts

- Pedestal-mounted with stainless steel pipes and fittings
- Stay-open valve
- Spray nozzle is made from ABS
- Features a built-in pressure compensator, filter, and aerator for soothing, precise flow
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014
- **91223001 and 91221202:** Stainless steel features make it ideal for harsher work environments

60-100° F

ANSI Z358.1 standard defines tepid water to be between 60-100 degrees F, as this temperature encourages the injured worker to continue flushing for the entire 15 minutes or until medical personnel has arrived.

Part #	Description
91211001	Eye and Face Wash Pedestal Mount
91223001	Stainless Steel Eye and Face Wash Pedestal Mount
91221202	Stainless Steel Covered Eye and Face Wash Pedestal Mount

Horizontal Drench Shower Wall Mount

- Wall-mounted with galvanized pipe
- 1" brass valve
- Corrosion-resistant paint
- Yellow powder-coated pull rod used for valve activation
- Swirlflow shower head with ABS dome
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #
52121111

Unique “**Swirlflow**” shower head design delivers a deluge of water when the body is exposed to corrosive materials. The compact water pattern relies on efficient fluid dynamics for adequate and complete drenching.

Stainless Steel Horizontal Drench Shower Wall Mount

- Wall-mounted with galvanized pipe
- 1" brass valve
- Corrosion-resistant paint
- Yellow powder-coated pull rod used for valve activation
- Swirlflow shower head with stainless steel dome
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #
52121141

Emergency shower, eye and eye/face wash units must be activated one time per week to ensure that units are still working properly and flush out any stagnant water. Inspection tags are used to document these audits.

Horizontal Drench Shower Ceiling Mount

- Ceiling-mount features galvanized pipe
- 1" brass valve
- Corrosion-resistant paint
- Yellow powder-coated pull rod used for valve activation
- Swirlflow shower head with ABS dome
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #
52131111

Yellow powder-coated pull rod used for valve activation

Stainless Steel Horizontal Drench Shower Ceiling Mount

- Ceiling-mount features galvanized pipe
- 1" brass valve
- Corrosion-resistant paint
- Yellow powder-coated pull rod used for valve activation
- Swirlflow shower head with stainless steel dome
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014

Part #
52131141

20 GPM

Compliant emergency shower units must release a continuous flow of at least 20 GPM of tepid flushing water for a minimum of 15 minutes.

Eye/Face Wash & Safety Shower Combination Units

- Galvanized pipes and fittings
- Stay-open valve
- Corrosion-resistant paint
- Spray nozzles are made from ABS
- Features a built-in pressure compensator, filter, and aerator for soothing, precise flow
- Hand operated push handle and pull rod for ease of use
- Contrasting yellow color improves visibility
- Safety sign and inspection tag included
- 100% hydrostatically tested to ensure reliable connections
- 3rd Party UL tested to meet ANSI Z358.1-2014
- **53111121 and 53114441:** Durable stainless steel make it ideal for harsher environments

The recommended flow rate for showers, eye and eye/face wash is 30 psi to ensure a non-injurious soft flow

Part #	Description
53111111	Eye/Face Wash and Safety Shower Combination Unit
53111121	Eye/Face Wash and Safety Shower Combination Unit with Stainless Steel Bowl
53114441	Stainless Steel Eye/Face Wash and Safety Shower Combination Unit

Pedestal Mount Conversion Kit

- Convert wall-mounted eyewash units to a free-standing pedestal version that can be located away from walls
- Includes robust floor flange for secure anchoring to the mounting surface
- Available in standard galvanized pipe (painted) or corrosion-resistant stainless steel

Part #	Description
89022001	Galvanized Pipe
89022002	Stainless Steel

Modesty Curtain

- Provide privacy when clothing removal is necessary due to chemical exposure
- Bracket is 53" side and projects 41" from the wall
- Contains shower overspray so surrounding items stay dry
- Wall-mount units can be used anytime the shower head is installed on or near a wall
- Available in standard painted steel or corrosion-resistant stainless steel
- Includes yellow coated polyester shower curtain and stainless steel hangers

Part #	Description
89022005	Painted Steel
89022003	Stainless Steel

Eyewash Test Gauge

- Measure spray patterns and arc to ensure eyewash stations are operating within the standards defined by ANSI/ISEA Z358.1
- Clear, durable plastic gauge include illustration template compliant with ANSI/ISEA Standard Z358.1
- Testing instructions printed on test gauge along with ruler for estimating height for proper use

Part #
89022009

1/2" Anti-Scald Temperature Control Valve Kit

- Temperature controlled valves protect employees from burn injuries caused by overheated water
- Automatically bleeds off overheated water from safety showers
- Allows cooler water from the supply line to reduce water temperature
- Activation temperature: Opens at 100°F, closes at 95°F
- Self-resetting for continuous protection
- Features 1/2" NPT (1/2-14) threaded connections on both ends

Part #
89022007

1/2" Anti-Freeze Temperature Control Valve Kit

- Temperature controlled valves prevent freezing by purging cold water from the system
- Automatically bleeds line to move water when it comes near the freezing point
- Activation temperature: Opens at 34°F, closes at 39°F
- Self-resetting to resume normal operation after cold conditions pass
- Features 1/2" NPT (1/2-14) threaded connections on both ends

Part #
89022008
