700 Series Safety Lockout Padlocks

The **700 Series Safety Lockout Padlock** is the most flexible and comprehensively applicable padlock on the market. The lock features a solid aluminum body with a hardened steel shackle for dependable industrial performance.

The padlocks are available in 6 colors; 1.5" and 3" shackles; keyed different, keyed alike, and keyed alike sets of 3 and 6. Custom master-keyed locks are also available. One key included per OSHA guidelines.

700 SERIES FEATURES

- Unique body design features bilingual wraparound labels.
- Zing locks are the only lockout padlock that can accommodate a bilingual label on a standard size padlock.
- Shackle inserts feature a barrier cap, which protects the lock body and interior from dirt and moisture.
- Solid aluminum body with a hardened steel shackle.
- The body and shackle are encased in recycled plastic for extended durability and dielectric properties.
- The 6-pin lock mechanism provides dependable security with key-retaining and auto-locking functions.

800 Series Extreme Environment Safety Padlocks

The **800 Series Extreme Environment Safety Padlock** is designed to perform in the most strenuous environments. The stainless steel shackle and key-way cap ensure dependable lockout safety.

Best lockout padlock as chosen by ISHN readers choice!

800 SERIES FEATURES

- The 800 Series Padlock is the best solution for extreme lockout applications. Excels in high wash-down environments like food manufacturing, saltwater locations like oil rigs or mines, and industrial environments that are exposed to the elements.
- The 800 Series includes all the features of the 700 Series padlock plus a specially treated lock body, stainless steel shackle, and protective key-way cylinder cap.

Safety Padlocks

ZING® Safety Padlocks feature a solid aluminum body, steel shackle, and a fully insulated protective covering for increased safety and corrosion resistance.

Precision 6-pin cylinder has key-retaining and auto-locking functions. Locks are made from recycled materials, contain no PVC and use only food grade lubricants. UL Validated for recycled content.

- Shackles measure 1/4" diameter and are available in 1½" or 3" lengths.
- Body lengths are available in 1¾" and 3".

Aluminum Padlocks

Lock body measures 1-9/16"H x 1/2"W x 3/4"D, with a shackle diameter of 1/4". Available with 1½" or 3" shackles.

Lock bodies are made from lightweight recycled aluminum. The shackle is made from hardened alloy steel with a corrosion-resistant protective plating. Standard padlocks are keyed different and include two keys per lock. Locks are non-sparking, nonmagnetic, and feature a precision 6-pin cylinder for maximum security.

Crane/Hoist Control/Plug Lockout Device

The multiple-button hoist control lockout effectively prevents users from operating hoist controls, such as those commonly used to operate cranes. The device includes a fabric cover and plastic pipe insert, which prevents buttons from being pressed. The cover features an enclosed leather belt that accepts up to 6 padlocks. The pipe fits around the hoist controls, which is then covered by the fabric pouch and locked out.

Part #	Description	Cover Dimensions	Pipe Insert Dimensions
7364	Hoist Control / Plug Lockout, Fabric Cover with Pipe Insert	18"H 9"W	12"H 5"W
7365	Hoist Control / Plug Lockout, Fabric Cover with Pipe Insert	25"H 9"W	20"H 5"W
7621	Hoist Control / Plug Lockout, Cover Only	18"H 9"W	
7622	Hoist Control / Plug Lockout, Cover Only	25"H 9"W	

Forklift Lockout Kit

The Forklift Lockout Kit effectively locks out forklifts for routine maintenance and repair. The lockout device also locks out LP tanks. Contents include:

- (1) 7294 Universal Forklift/Plug/Valve Lockout
- (1) 7030 Padlock
- (4) 7356E Equipment Lockout Tags
- (4) 7130 Cable Ties

Group Lockout Box

Zing's group lockout box is made from heavy-duty powder-coated steel with a clear plastic window.

- Handy box features a lockable storage compartment and a group lockout compartment. Accepts 17 locks.
- Made of heavy duty steel, powder coated for extra rust resistance. 6 lbs.
- Group lockout compartment has clear lexan window with keyhole slot.

Part #	Description	Dimensions
7635	17- Lock Group Lockout Box	7.1" H x 13.6" W x 7.75"D

26-Lock Group Lockout Box

Group lockout box supports compliance in group lockout operations. The box is made from durable steel and accepts up to 26 padlocks. The box features a clear sliding lid, which can be locked when the box is closed. The box measures 9.25"H x 4.25"W x 5.5"L.

Part #	Description	Dimensions
7630	26-lock Group Lockout Box, Steel, Red	9.25" x 5.5" x 4.25"

Portable Wall-Mount Group Lockout Box

Wall-Mountable Group Lockout Box protects workers during maintenance and repair operations. The device measures 7"H x 10"D x 4"W and is made of durable steel. Accommodates up to 12 padlocks, plus 1 on the latch.

Part #	Description	Dimensions
7288	Group Lockout Box, Wall Mount, Red	7" x 10" x 4"

Wall-Mount Group Lockout Box

Wall-Mount Group Lockout Boxes provide a durable, convenient solution to group lockout. Clear plastic doors allow workers to easily see the contents. Mounting holes are pre-drilled. Hardware is included.

Ball Valve Lockouts

Ball Valve Lockouts lock quarter-turn ball valves in the OFF position. Available in steel and plastic.

7273

7274

7275

7670

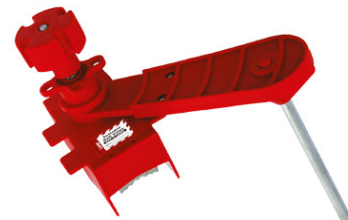

Part #	Material	Description	Valve Size	Dimensions
7273	Steel	Ball Valve Lockout, Accepts 8 Padlocks	Fits 0.25" - 1" Valves	3.5"H x 2.5"W x 2.1"D
7274	Steel	Ball Valve Lockout, Accepts 15 Padlocks	Fits 1.25" - 3" Valves	5.5"H x 5"W x 5"D
7275	Plastic	Ball Valve Lockout, Accepts 8 Padlocks	Fits up to 1.5" Valves	6"H x 5"W x 4.5"D
7670	Steel	Ball Valve Lockout, Accepts 6 Padlocks	Fits 0.25" - 1" Valves	6"H x 2"W x 0.5"D

Adjustable Ball Valve Lockouts

Adjustable Ball Valve Lockouts lock and close ball valve openings of various sizes. Nylon and stainless steel construction. Designed to lock out quarter-turn valves of varying sizes and handle dimensions (round, square or flat) up to 1-1/4" thick x 1-5/8" wide. Valves can also be locked in the ON or fixed positions for non-lockout applications.

7633

7634

Part #	Description	Dimensions	Fits Handle Sizes
7633	Adjustable Ball Valve, with 4.5" Arm	10"H x 3"W x 7.2"D	Up to 1" Wide, 0.6" Thick
7634	Adjustable Ball Valve, with 5.75" Arm	10"H x 3.5"W x 7.5"D	Up to 1.6" Wide, 1.1" Thick

Ball Valve Lockout Device

Ball Valve Devices fits most common ball valves. The sleeves inside the cover adjust to grip valves. The device is non-conductive and resistant to extreme weather & temperature conditions.

Part #	Description	Valve Sizes	Dimensions
7249	Ball Valve Lockout	Fits Valves from .38" to 1.4" Diameter	8"H x 3.75"W x 4"D
7250	Ball Valve Lockout	Fits Valves from 1.5" to 2.5" Diameter	11"H x 4"W x 5"D
7251	Ball Valve Lockout	Fits Valves from 2" to 8" Diameter	14"H x 4.75"W x 6"D

7249 application

Pull Handle Valve Lockout Device

The Pull Handle Butterfly Valve Lockout provides an easy-to-use lockout solution for butterfly valves. The device is resistant to cracking, abrasions, heat, and cold. Excellent for the food and beverage industry.

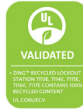

Part #	Description	Dimensions
7514	Pull Handle Valve Lockout	8"H x 1.63"W x 1.5"D

Gate Valve Lockouts

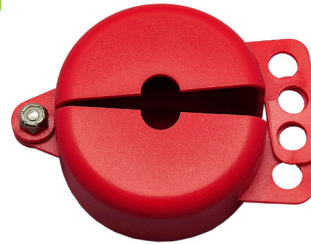

Eco Gate Valve Lockouts

ZING Eco Gate Valve Lockouts are made from heavy-duty, 100% recycled plastic. Accommodates 3 padlocks, with shackles up to 3/8" diameter.

Gate Valve Lockouts

Gate Valve Lockout Devices are made from abrasion-resistant polyurethane or steel. When lockouts are secured, they rotate freely around the hand wheel and prevent the valve wheel from being turned.

7103

7246

Part #	Description	Dimensions	Padlock Capacity
7103	Eco Gate Valve Lockout, fits wheels from 1"-2.5"	1"H x 3"W x 3"D	3

7809	Gate Valve Lockout, Steel, fits wheels from 5-6.5"	7.5"H x 7"W x 7"D	4
7810	Gate Valve Lockout, Steel, fits wheels from 6-10"	11"H 11" W x 3"	4
7811	Gate Valve Lockout, Steel, fits wheels from 10-13"	14"H 14" W x 3"	4

7807

Adjustable Gate Valve Lockout

Adjustable Gate Valve Lockout Devices fit valve hand wheels from 1" to 6.5". Made of durable polypropylene and resistant to extreme temperature changes (-13°F to 194°F).

Part #	Description	Dimensions
7271	Adjustable Gate Valve Lockout, Plastic	7"H x 5"W x 2"D

Butterfly Valve Lockout Device

Fits most common butterfly valves. Resistant to cracking, abrasion, solvents and other chemical products.

Part #	Description	Dimensions
7605	Butterfly Valve Lockout	12"H x 4"W x 2.75"D

Forklift/Plug/Cylinder Lockout

#7294 Multi-purpose Lockout Device

The Universal Forklift/Plug/Cylinder lockout allows workers to perform several lockout functions with one convenient device. The device effectively locks out plugs, gas cylinder shut-off valves, and electric or propane powered forklifts. The device is made in the USA from 100% recycled plastic and supports OSHA standard 1910.147.

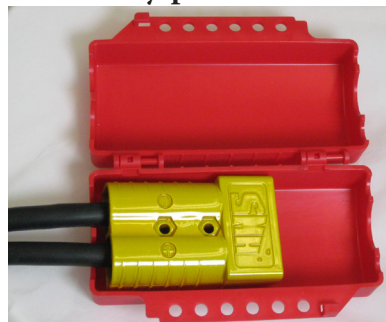

Applications Include:

Plug Lockout

- 120 Volt Plug
- 250 Volt-Sp Plug
- 15-60 Amp 3P Plug

Electrically-powered Forklifts

- Battery Plug 50-350 AMP
- Starter Battery Negative(-) Terminal

Cylinder Lockout

- Fits all standard gas cylinder wheels

Gas-powered Forklifts

- LP Gas Cylinder Shutoff Valve
- LP Gas Tank Coupling

Part #	Description	Dimensions	Padlock Capacity
7294	Forklift/Plug/Cylinder Lockout Device	3"H x 4.25"W x 7.25"L	6

Plug Lockouts

Eco Small Plug Lockout fits up to 0.5" diameter cords and 2"W x 3"L plugs. Accepts 3 padlocks. Made in USA from recycled plastic.

Eco Large Plug Lockout features a universal fit closure, which accepts up to a 1.25" diameter cord and 3"W x 5.5"L plugs. Accepts 3 padlocks. Made in USA from recycled plastic.

Small Plug Lockout fits up to 0.5" diameter cords and accepts 4 padlocks.

Large Plug Lockout fits up to 1" and 1.5" diameter cords and accepts 4 padlocks.

110-120V Two-Prong Plug Lockout Device works on two prong plugs with or without the ground, polarized and non-polarized. Device is keyed different and comes with two keys.

Propane Tank Lockout fits LP gas cylinder handwheels up to 2-3/16" diameter. Accommodates up to 3 padlocks with shackles up to 9/16" diameter.

Small Premier Lockout: 110V plug lockout with 1/2" diameter hole for cable.

Large Premier Lockout: 220V / 500V plug lockout with 1" diameter hole for cable.

Large Rectangular Plug Lockout: locks out standard and large 3 phase connectors, and 220V / 500V plugs up to 1/10"H x 3-2/5"D x 3-1/3"W. Fits cord diameters from 1/3"-3/4".

Pneumatic/Plug Lockout: locks out 220V/500V plugs and standard and larger 3-phase connectors, plus 4 sizes of male pneumatic hose fittings.

7311

7312

Ladder Lockouts and Lockout Kits

Ladder Lockout Cover Wrap

- 11.3 oz
- Overall Length: 87" x 13-3/8"
- Visible area when wrapped on the ladder: 43-1/2" x 13-3/8"
- Wraps identifies ladders that are out of service or defective. Deters use by wrapping around the rungs and being secured with a padlock.
- Bilingual messaging: DANGER DO NOT CLIMB ON LADDER/PELIGRO NO TREPE LA ESCALERA
- Highly visible graphic for visual communication
- Heavy-duty canvas construction
- 1/2" ID metal grommet at each end
- Can be easily rolled up or folded when not in use
- Made in the USA

7399 also includes (1) Lockout Padlock Keyed Different, with 1 key.

7400 also Includes (1) Lockout Padlock Keyed Different, with 1 key, (1) Out of Service Safety Tag, and (1) Cable Lockout with 3' cable.

Blind Flange Lockout

New Blind Flange Lockout devices provide a safe and easy-to-use pipeline lockout solution. The adjustable cup ensures a secure fit when locked in place with a lockout padlock.

- Coated aluminum construction with hardened steel rod.
- Fully conceals flange bolts, preventing access to the blind until all work has been completed.
- Adjustable device provides a tight fit.
- Available in three sizes, covering pipe diameters from 1/2" to 24".
- Accommodates up to 8 padlocks.
- Performs in temperatures from -40 to 200 degrees Fahrenheit.

Step 1

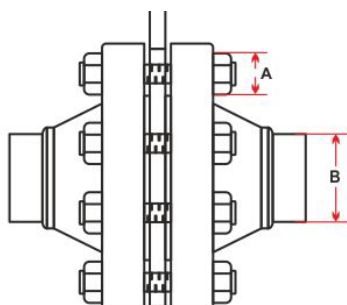

Step 2

Step 3

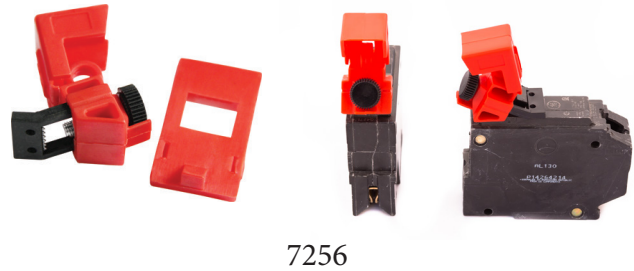

Step 4

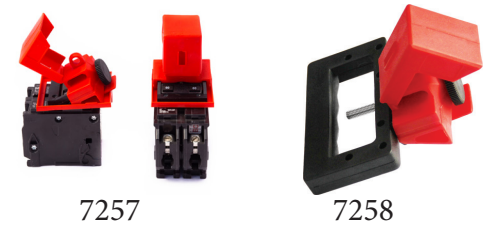

Part #	Nut Diameter (A)	Fits Pipe Diameters (B)

7695	2" to 2-3/4"	14" to 24"
7698	Blind Flange Lockout Set (includes 7693, 7694, and 7695)	

Clamp-on Circuit Breaker Lockouts

Clamp-On Breaker Lockouts work on a wide variety of single-pole and internal-trip multi-pole breakers. The thumbscrew design facilitates easy installation: simply tighten the lockout securely onto switch tongue, pull the cover over the thumbscrew and lock in place. Accepts lock shackles up to 9/32" in diameter. The lockouts are made of durable plastic (polypropylene) and impact-modified nylon. Cleats are included.

Circuit Breaker Lockouts

7284: This lockout fits directly into the switch. To apply, mount in place over "off" position switch and secure with a padlock. Fits most common single-pole breakers.

7285: 120/277 Multi-pole circuit breaker. Requires the breakers to be connected with a cross bar.

7606: Single-pole lockout device. Fits circuit breaker toggles up to 1/2" wide without a recess hole in the toggle. Made from durable plastic. Fast and easy to install.

7607: 120/277 Clamp-on circuit breaker lockout fits most multi-pole breakers that employ a tie bar. Durable nylon construction with a stainless steel screw.

7611: Double pole circuit breaker lockout accommodates larger breakers.

7803: Locks Out Flip Switches to 1/2" x 1 1/2"

ABB Circuit Breaker Lockout

Lockout device for residual-current circuit breakers (RCCBs). Secures single or multi-pole RCCBs against unauthorized energization.

Part #	Description	Dimensions
7317	ABB Circuit Breaker Lockout	2"H x 1.75"L x 0.38"W

Circuit Breaker Lockout Set

Set of 5 circuit breaker lockout devices safely locks out single and multi-pole breakers. Each device accepts one padlock. Screwdriver required for installation.

Part #	Description	Dimensions
7313	Circuit Breaker Lockout Set	3"H x 2"L x 4"W

Europa Circuit Breaker Lockout

Europa Miniature Circuit Breaker lockout effectively locks out miniature circuit breakers, residual current circuit breakers, and residual-current circuit breakers with overcurrent protection. The device accommodates 1 padlock.

Part #	Description	Dimensions
7314	Europa Miniature Circuit Breaker Lockout, Red	1"H x 1"L x 3"W

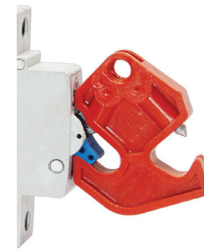

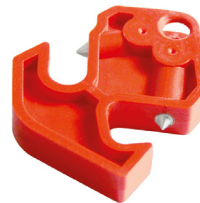

*actual color not shown

Multi-function Circuit Breaker Lockout

The Universal Circuit Breaker Lockout fits most miniature circuit breakers and main switches. Extra length clearance on the toggle side allows the device to be used on standard breakers with long toggles. The opposite side of the device accommodates thicker main switches.

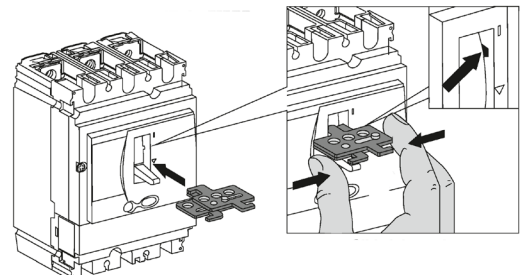

Part #	Description	Dimensions
7315	Multi-functional Circuit Breaker Lockout	1"H x 1"L x 2.5"W

Merlin Gerin Breaker Lockout

The Merlin Gerin 4c Breaker Lockout engages in the slot behind the switch toggle, effectively locking out the switch. The device measures 2" x 2" and accepts up to 3 padlocks.

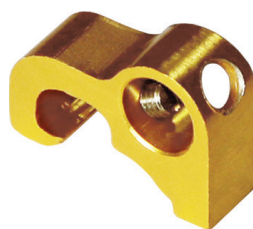

Part #	Description	Dimensions
7316	Merlin Gerin Breaker Lockout	0.25"H x 2"L x 2"W

Mini Circuit Breaker Lockout

Miniature Circuit Breaker Lockout effectively locks out ISO/DIN miniature circuit breakers. The device is made from durable aluminum and accommodates 1 padlock with a maximum shackle diameter of 9/32".

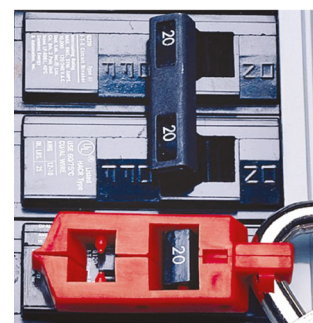

Part #	Description	Dimensions
7263	Mini Circuit Breaker Lockout	0.75"H x 0.5"W x 1"L

Snap-on Circuit Breaker Lockout

The Snap-on Circuit Breaker Lockout locks out 120V breakers with holes in the switch tongue. No tools are required for installation. The two ends of the device snap together, which can then be locked out with a lockout padlock.

Part #	Description	Dimensions
7513	Snap-on Circuit Breaker Lockout	2"H x 0.75"W x 0.25"L

Fuse Lockouts

The **Fuse Blocker lockout device** is designed to be placed where fuses have been removed, thereby preventing accidental insertion of fuses. The device is made from durable plastic and accepts 1 safety tag.

Part # 7609 fits fuse sizes of 13/16", 11/16", and blade-type fuses.

Part # 7610 fits fuse sizes of 1/4", 9/32", 13/32", and 9/16".

Fuse holder lockout devices clamp on to fuse holders using a small screw. Applying a padlock prevents access to the screw, thereby locking the device into place.

7691	Fuse Holder Lockout	2.25" H x 1.0" W x 0.5"D
7692	Fuse Holder Lockout, Slim	2.25" H x 1.5" W x 0.5"D

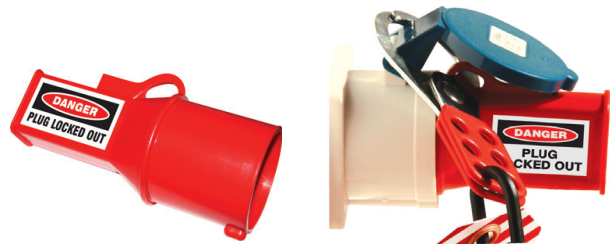

7609 and 7610 application

Pin & Sleeve Socket Lockouts

Ideal for locking out pin and sleeve surface-mounted or trailing sockets. Lockouts are available in 4 sizes, and block sockets of 110V, 16 Amp to sockets of 500 V, 63 Amp. The lockouts are made from durable polypropylene plastic. To use the Socket Lockout, simply insert the device into the female socket, bring over the socket flap to hold it in place, and lock out with hasp & padlock.

Part #	Voltage	Description	Dimensions
7264	110-130V	Socket Lockout, Small	4"H x 2"W x 1.5"L
7265	220-240V	Socket Lockout, Medium	4.5"H x 2.5"W x 2.25"L
7266	380-415V	Socket Lockout, Large	5.25"H x 3"W x 2.5"L
7267	500V	Socket Lockout, Extra Large	7"H x 5"W x 4"L

Pin & Sleeve Plug Lockout

Pin & Sleeve Plug Lockout prevents plugs from being used. To apply, slide the device over the alignment tab on the plug rim and snap closed.

Part #	Description	Dimensions
7268	Pin and Sleeve Plug Lockout	2"H x 1.25"W x 1"L

Push Button Lockouts

Safe & effective method of locking out start/stop buttons.

- Made from clear plastic (polycarbonate).
- Accommodates 1 padlock.
- Lockout labels are provided.
- Easy installation

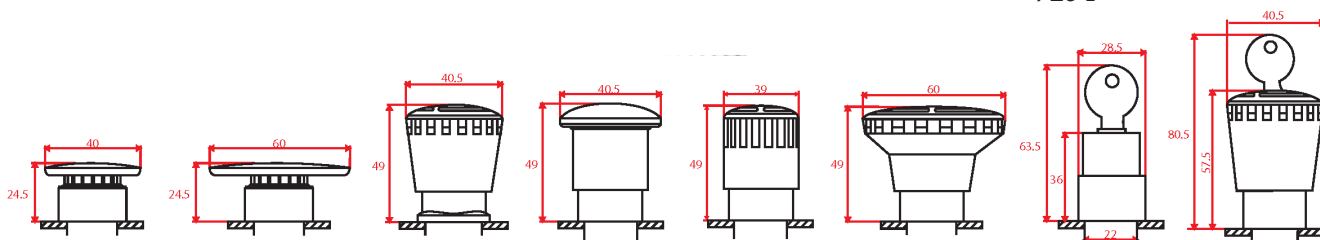

Part #	Description	Dimensions
7253	Standard Push Button Lockout	1.3"L x 2.7"W, with 1.15" hole diameter
7254	Oversize Push Button Lockout	3.5"H x 5"L x 3.2"W with 1.8" hole diameter

7253

7254

Electrical Panel Handle Lockout

The Electrical Panel Handle lockout device prohibits the movement of handles or levers on electrical panels. A plastic yellow base and an adjustable stainless steel strip (1" x 11-4/5", with 20 holes) immobilizes handles once locked with a lockout padlock. Recommended for all handles and levers that do not have a built-in lockout arrangement.

Part #	Description	Dimensions
7252	Electrical Panel Handle Lockout	4"H x 2.25"W x 3"L

Knife Switch/Power Handle Lockout

The 7815 Knife Switch Lockout is used to lockout knife switch style power handles and does not require the device to be secured to anything other than the switch itself. The device accommodates up to 4" diameter handle bases with up to a .6" diameter, 5" long handle. Includes 2 different styles of handle attachments to accommodate both round or oblong shaped handles.

Part #	Description	Dimensions
7815	Knife Switch Lockout	7"H x 2.5"W x 2"L

7815 application

Motor Protection Lockout

Motor Protection Circuit Breaker lockout is a unique device for locking out the breakers on a motor control unit by encasing the breaker. Fits up 1.75" breaker housing. Features:

- Made of special grade alloy and ABS.
- Can easily be installed with the help of black twister at the bottom of the device
- The brass pherol gives extra life and strength to stainless steel screw that binds the lockout to the breaker.
- Can be installed on variety / types of MPCB of different companies.
- A padlock should be applied on the MPCBL for locking it out.

Part #	Description	Dimensions
7816	Motor Protection Lockout	3"H x 4"W x 3"L

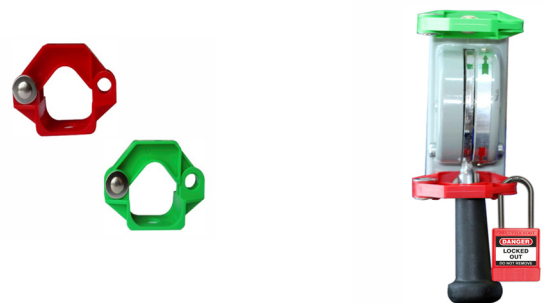

7816 application

Power Handle Lockout

Ideal for locking out electrical panel power handles.

- Fits handle diameter up to 1-3/16"
- Green color indicates the disconnect; red color indicates the connection
- Made from rugged high-impact plastic

Part #	Description	Dimensions
7804	Power Handle Lockout	3"H x 3"W x 3"L

7804 application

Stainless Steel Cable Lockouts

Industrial Steel Cable Lockout devices are made from durable stainless steel and are suitable for harsh or outdoor environments. The cables are made from stainless steel.

7243

7310

7243 application

Part #	Description	Dimensions
7243	Cable Lockout, Steel, 6.5' Cable, with Adjustable Grip	4.5"H x 4"W x 4"L, with 6.5' Cable
7310	Cable Lockout, Steel, 6' Cable	1.5"H x 4"W x 4"L, with 6' Cable

Multi-purpose Cable Lockouts

Multi-purpose Cable Lockouts conform to the shape of your hand, making them easy to adjust and secure. To install, simply squeeze the handle and apply your padlock when the cable is tight and the source is locked out. The device is available with a vinyl-coated steel cable or a dielectric nylon cable.

7244

7245

Part #	Description	Dimensions
7244	Cable Lockout, 3' Steel Cable	6"H x 6"W x 1"L, with 3' Cable
7245	Cable Lockout, 3' Dielectric Nylon Cable	6"H x 6"W x 1"L, with 3' Cable

Universal Cable Lockouts

Cable Lockout devices provide an effective, multi-purpose solution to lockout compliance. The accommodates 6 padlocks with a maximum shackle diameter of 3/8". The hasp is made from durable plastic, with a coated steel cable. Several cable lengths are available; see chart below.

Part #	Description	Dimensions
7289	Cable Lockout, 3' Steel Cable	5"H x 2.5"W x 1"L, with 3' Cable
7290	Cable Lockout, 6' Steel Cable	5"H x 2.5"W x 1"L, with 6' Cable
7291	Cable Lockout, 9' Steel Cable	5"H x 2.5"W x 1"L, with 9' Cable
7292	Cable Lockout, 15' Steel Cable	5"H x 2.5"W x 1"L, with 15' Cable

Eco Cable Lockouts

Eco Cable Lockout prevents switches, valves and other energy devices from being used while equipment is being serviced or repaired. The device is made in the USA from recycled plastic, with a coated steel cable. The closed hasp hole measures 1". The device features pry-resistant tabs for extra security, and accommodates up to 6 padlocks with shackles up to 3/8" diameter.

Part #	Description	Dimensions
7132	Cable Lockout, Steel, 6.5' Cable, with Adjustable Grip	0.75"H x 3"W x 7"L, with 6.5' Cable
7133	Cable Lockout, Steel, 6' Cable	0.75"H x 3"W x 7"L, with 6' Cable

Cable Lockouts, 7 Hole

- Easy to carry and use.
- Plastic construction with 6 ft. insulated steel cable.
- Effective in a variety of lockout situations.

Part #	Description	Dimensions
7623	Cable Lockout, 6 ft. Coated Steel Cable	6"H x 2"W x 0.25"L, with 6' Cable
7624	Cable Lockout, 9 ft. Coated Steel Cable	6"H x 2"W x 0.25"L, with 9' Cable

Interlocking Cable Lockout

Interlocking Cable Lockout accommodates up to 4 padlocks and includes a vinyl-coated steel cable. Available with a 6 ft. or 15 ft. cable.

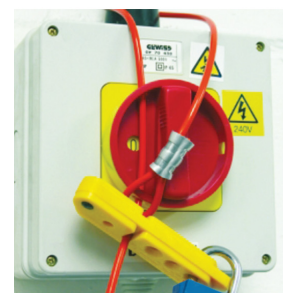

Part #	Description	Dimensions
7625	Cable Lockout, 6 ft. Coated Steel Cable	7"H x 3.25"W x 1"L, with 6' Cable
7646	Cable Lockout, 15 ft. Coated Steel Cable	7"H x 3.25"W x 1"L, with 15' Cable

Cable Lockouts, 4 Hole

Multi-purpose cable lockout device with 6ft. coated steel cable.

- PVC construction.
- Ergonomic design features finger curves and a thumb rest.
- Accommodates 4 padlocks.

Part #	Description	Dimensions
7626	Cable Lockout, 6 ft. Coated Steel Cable, 4 Holes	7"H x 4"W x 1"L, with 6' Cable

Pneumatic Lockout, Fits 7 Sizes

The stainless steel pneumatic lockout device locks out 7 sizes of pneumatic fittings, accommodating nearly all pneumatic fittings commonly used in manufacturing facilities. The device accepts up to 2 padlocks.

The device is easy to install: simply enclose the fittings between the two parts and apply a lockout padlock.

Part #	Description	Dimensions
7631	Pneumatic Lockout, Steel, Fits 7 Sizes	3"H x 7.25"W x 0.25"L

Pneumatic Lockout, Fits 3 Sizes

The 3-sided Pneumatic Lockout device isolates pneumatic energy without the expense of installing in-line lockout valves. The device is applied directly to the male fittings, isolating equipment from all compressed air sources.

Part #	Description	Dimensions	For Male Fittings:
7632	3-sided Pneumatic Lockout	3"H x 3"W x 0.75"L	1/4", 3/8", 1/2"

Wall Switch Lockouts

Wall Switch Lockout devices cover wall-mounted switches and locks switches in the "on" or "off" position. The devices accommodate 1 padlock each, with shackles up to 3/8" diameter.

6064

7507

Part #	Description	Dimensions
6064	Eco Wall Switch Lockout, Red	3.5"H x 1.5"W x 0.25"L
6064-WHITE	Eco Wall Switch Lockout, White	3.5"H x 1.5"W x 0.25"L
7613	Clear Wall Switch Lockout	3.75"H x 1.5"W x 0.5"L
7614	Universal Wall Switch Lockout	4.25"H x 1.5"W x 1"D
7507	Side-Hinge Wall Switch Lockout	3"H x 1.5"W x 0.5"L

7613

7614

Switch/Button/Plug Lockouts

Multi-purpose lockout devices have been designed to lock out switches, buttons, and plugs without a built-in lockout provision. The devices are made from clear polycarbonate. Installation requires three steps:

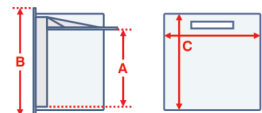

1. Using the self-adhesive backing, attach the base directly over the relevant switch, button, or plug.
2. Place the house unit over the base.
3. To prevent unauthorized access, apply a lockout padlock.

The devices are available in several different designs (see chart below).

Self-laminating Lockout Tags

Self-laminating tags protect critical messages in industrial environments. When you need a customized message that won't smudge or fade, self-laminating tags let you seal in your message under a clear, protected layer. To laminate, remove the lining and press the clear laminate layer onto your text.

- Each tag features a reinforced grommet for sturdy hanging.
- Durable tags resist water and wear.
- 0.28" thick PVC with polyester laminate.

7350	Self-laminating Tag, Do Not Operate, Equipment Locked Out By
7351	Self-laminating Tag, Do Not Operate

7350

7351

Two-part Perforated Lockout Tags

Perforated Tags are made from durable plastic and feature a removable stub for enhanced operational control and record-keeping. The tag and stub have matching serial numbers. The stub is removed when the tag is attached to a lockout point. Only the employee in possession of the stub has the authority to remove the tag. After the job is done, stub is returned to management for verification and monitoring.

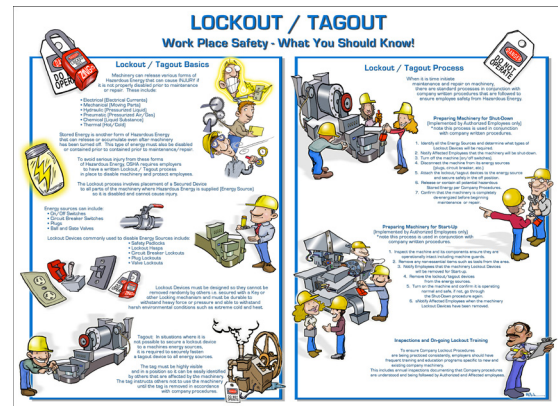

Part #	Description
7352	Perforated Lockout Tag, Do Not Operate
7356	Perforated Lockout Tag, Equipment Locked Out

Lockout Training Poster

ZING's Lockout/Tagout poster provides a visual overview of Lockout/Tagout procedures. Eye-catching graphics emphasize and reinforce key points. Made from recycled plastic. Poster measures 18"H x 24"W. Made in the USA.

Part #	Description
6065	Eco Lockout/Tagout Poster

Lockout Training Booklets

ZING's Lockout/Tagout Training Booklets provide a clear overview of lockout/tagout procedures. Topics include lockout procedures, lockout devices, group lockout, and employee responsibilities. A quiz is also included to test employee knowledge.

Part #	Description
6071	Lockout Training Booklet, 10/pk

Lockout Registers

Lockout registers encourage lockout compliance and ensure that crucial lockout information is available for employees. The set includes two books: **Energy Isolation Record** and **Equipment Issue/Return Record**. Each department uses a register to:

- store procedures
- record which devices can be used by which employee
- record crucial information about each machine's location, authorized employees, and recommended devices.

Part #	Description
7600	Lockout Registers (set of 2)

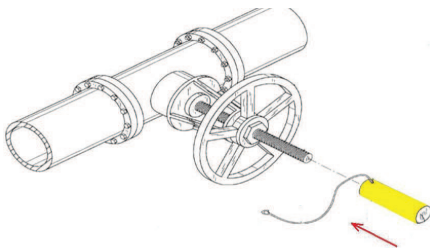

Stem Shield Valve Covers

Stem Shields are pipe and elastomeric foam sleeves that quickly slip over exposed stems. A small, stainless steel tether holds the unit firmly in place. They take less than 15 seconds to install and protect the stem for years.

BENEFITS OF STEM SHIELD:

1. **Worker Protection:** Workers are protected from injuries associated with exposed valve stems (cuts, gouges, broken ribs, concussions, facial trauma, impalement, etc.). Bright colored stem covers also raise awareness of potential hazards.
2. **Valve Protection:** The stems are protected from thread damage. They are protected from elements, corrosion, and over sprays. Also helps prevent yoke contamination, ensuring your valve will continue to operate correctly.
3. **Lubricant Protection:** The lubrication needed to keep stems operational is protected from the elements and debris, like sand and dirt, which causes wheels to tighten up and become difficult to turn. Lubricant run-off is eliminated and frequency of lubrication is reduced.

How It Works:

Simply slide the Stem Shield over an exposed stem and clip the stainless steel tether to the wheel or valve yoke casing. The installation process takes less than 15 seconds.

Stem Shield Valve Covers

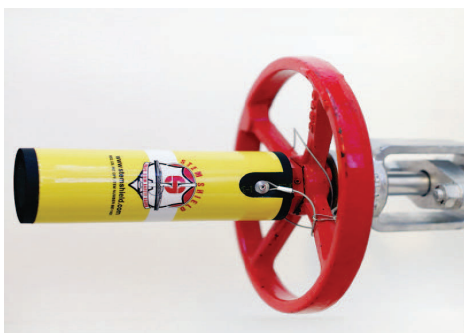

Stem Shields provide simple, cost-effective safeguards against the all-too-preventable injuries sustained when workers bump, graze, or ram into stems that project from industrial valves.

LIGHTWEIGHT – Stem Shields, depending on size, weigh between 7-14 ounces. They are lightweight and easily ship from supplier to your job site. With 5 main sizes to choose from, Stem Shields are made to fit length and diameter of 95% of all industrial stems.

EASY INSTALLATION– Stem Shields are installed in less than 15 seconds per stem.

NO JOB INTERRUPTIONS– Stem Shields attach to valves without inhibiting operations, Stems are operational with Stem Shield installed.

MADE IN THE USA – Stem Shields are designed with quality in mind, utilizing stainless steel attachments and chemically resistant, waterproof, flexible rubber foam cushioning. Stem Shields are constructed to resist damage, high temperatures, and element erosion. Stem shields will provide quality insurance for years.

Part #	Description
7217	Stem Shield 5" fits 3"-5" Valve Stems
7218	Stem Shield 7" fits 6"-7" Valve Stems
7219	Stem Shield 9" fits 8"-9" Valve Stems
7211	Stem Shield 12" fits 10"-12" Valve Stems
7212	Stem Shield 18" fits 13"-18" Valve Stems

Upgrade to 700 and 800 Series Padlocks!

Dependable performance from the **most versatile lockout padlocks on the market**. See pages 2-3 inside!

700 Series

Superior Lockout Performance

Solid recycled aluminum body and plastic-encased hardened steel shackle unites durability with dielectric properties!

800 Series

The Best Solution for Extreme Environments

Stainless steel shackle excels in environments with frequent washdowns including:

- Food Manufacturing
- Oil Rigs
- Mining

*Every padlock includes English, English/Spanish, and English/French Labels!

*700 Series available in 6 colors!

- Innovative wraparound labels make Zing padlocks the **only lockout padlock that can accommodate a bilingual label on a standard size padlock**.
- A unique barrier cap around the shackle protects the lock mechanism from dirt and moisture.

*Sold individually and in keyed alike sets of 3 and 6!
