Z-FORCE™ by ZING

Part Number:
30-C100V

Cap Style, Type 1 Vented Hard Hat

Product Description

- Features a low-profile, modern design that is lightweight and compact
- Complies with ANSI/ISEA Z89.1 for Type I, Class C requirements for head protection
- Made in the USA from high-density polyethylene
- Vented design improves airflow and provides heat relief
- Moisture-wicking, polyester brow pad
- 4-point ratchet suspension allows for smooth, easy adjustability between hat sizes of 6.5" to 8"
- Vertical height adjustment capabilities (2 in front, 2 in rear) allow for a personal secure fit
- Accessory slots accommodate a variety of accessories, such as earmuffs or face protection
- ADD YOUR LOGO – Customizable with up to 4 different locations

MADE IN USA

Care and Maintenance

Clean using mild soap and lukewarm water only, then dry with a soft cloth.
Do not use chemicals or abrasive cleaners. Use of these substances may degrade the shell material and reduce impact resistance and protective performance.
Store in a cool, dry location out of direct sunlight and away from chemicals.
Do not store in vehicles or other environments subject to extreme temperatures.
